ROAD SAFETY A PRIORITY FOR THE CITY

Mayor Roberts said although the City was doing its part, all residents needed to be careful when driving. “Everyone who uses our roads need to be responsible and play their own part in improving road safety,” she said.

The Blessing of the Roads ceremony will take place on Monday 21 March 2016 at 10am, next to the City’s busiest intersection – Wanneroo Road and Joondalup Drive in Tapping.

As part of the ceremony, the City and WALGA will award the efforts of those working towards saving lives and reducing road trauma in Western Australia.

WANNEROO TOWN CENTRE FACELIFT

In light of Bike Week 2016, the City of Wanneroo has provided further cycling infrastructure with the recent installation of seven new bike repair stations and racks around the City, including in the Wanneroo town centre. Excitingly, the City now has more bicycle repair stations than any other metro local government.

Also new to the Wanneroo town centre is a colourful mural created on Rocca Way, created by students from Wanneroo Secondary College. I encourage you to head in to the town centre to take a look at its newest attractions.

BLUEPRINT FOR BRIGHT FUTURE

Council has taken an important step towards securing the future of our City, with the preparation of our new Economic Development Strategy.

The strategy is now open for public comment and sets the direction for business growth over the next five years; a period of enormous challenge and opportunity. Produced in close consultation with our local business community, this strategy comes as our City positions itself to become the industry powerhouse of the north-west region, helping to provide new jobs and strategic growth to support our growing population.

As one of Australia’s fastest developing municipalities, it is vital that the City of Wanneroo continues to work with other levels of government to deliver a sustainable, vibrant and connected future for our residents.

I encourage residents to go to our website wanneroo.wa.gov.au and provide your feedback on this important strategy.

BUILDING BEST PRACTICE

The City was awarded the inaugural Local Government Best Practice Award at the annual Master Builders Housing Excellence Awards held on 27 February.

This is a fantastic achievement for the City as we were nominated and judged by the building sector for excellence in building approvals and service. It is very pleasing to see our City has set the benchmark for best practice in building services in WA.

WANNEROO GIVES $5,000 TO WAROONA AND YARLOOP BUSHFIRE VICTIMS

I am pleased to announce that at the March Council Meeting, the City decided to donate $5,000 to Waroona and Yarloop bushfire victims on behalf of our residents.

These funds will be added to the wonderful and generous donations of nearly $9,000 recently raised at the Wanneroo Central Volunteer Bush Fire Brigade Quiz Night on 26 February, and the charity fundraiser organised by the Vietnamese Association on 6 March which raised $27,000.

WANNEROO CULTURAL CENTRE

The City of Wanneroo award winning Driver Reviver program in action with Central Ward Councillor Dot Newton JP.
