

Download the new Biz@Wanneroo App

City of Wanneroo leads the way in connection with local business

We would like to invite you to download '**Biz@Wanneroo**'.

The City of Wanneroo is one of the first local councils in WA to develop an 'app' specifically tailored to the needs of its business community

The free 'Biz@Wanneroo' aims to provide the local business community, partners and stakeholders with timely and relevant business information, news and events.

City of Wanneroo Mayor Tracey Roberts said the 'Biz@Wanneroo' App was a new approach that put the City of the forefront of embracing mobile technology to bring its local business community together.

"This free app is convenient and simple to use, and allows for all businesses, from sole trader to mobile operators to communicate with the City; and one another," she said.

"The information we send is direct and instantaneous so business owners can stay up to date with current business news and opportunities in the area," she said.

The **Biz@Wanneroo** app is designed to communicate and inform the business community and stakeholders, on news, events and information relevant to our City. It has been developed by the City's Economic Development Team, working in partnership with local IT company, CommunityToGo.

The App is available free from the App store (on Apple and Android) and we do encourage you to allow the notifications to be switched to on! This allows us to send important news updates or bring to your attention key events. If you register with your details, then you have increased functionality which allows you to provide feedback, suggest content and email the City direct.

Other features:

- Information about the Economic Development Team, activities and projects
- Information on government programs, grants and investment opportunities
- News about what our local businesses are doing
- Business events and training (with option to add to calendar)
- Aggregated news feeds from a number of sources
- Link to the City's website business pages & social media
