

MARMION AVENUE DUPLICATION PROJECT

Update - 10 May 2019

The City's contractor RJ Vincent has now been on site for 1 month and started works on sections 2 & 3 of the duplication of Marmion Avenue. Traffic management has been installed along Marmion Avenue from Camborne Parkway to Yanchep Beach Road.

The contractor will be concentrating on the clearing, earthworks and drainage to the Eastern verge of Marmion Avenue which will become the new South bound dual lane carriageway. Once the new carriageway is completed, the contractor will divert the two way traffic to the new carriageway while doing modifications to the existing intersections on the West of Marmion Avenue. The contractor will always maintain two lanes operational at all times.

Section 1 – Duplication Completed / Alkimos Vista

Section 2 – Clearing and Earthworks started / Amberton

Section 3 - Visual Message Sign at Butler
