

I am a long term local resident who has a proven track record of working for and delivering to our community.

As a successful local businessman and professional Engineer I believe I have the experience and ability to improve the quality of life of local residents.

With your support I am committed to finding a sensible planning outcome for our rural community, the further improvement of our town centre, the full implementation of dual lanes to Wanneroo Rd, the reduction of heavy vehicle traffic through our town site and the further extension of the City's CCTV network into more of our streets.

I will continue to support initiatives that improve the quality of life for our seniors, young families and protect our environment. I understand the financial burden felt by many people in our community and I am committed to keeping fees and charges as low as possible.
