

GUISE, Dianne Joy

As a current City Councillor, former member of State Parliament and a past President of the WA Council of State School Organisations I have a proven track record of working for and delivering to our community that spans nearly two decades.

I believe my extensive leadership experience along with a detailed understanding of all areas of our City provides me with both a positive vision for our future and the capacity to deliver on that vision.

I am strongly committed to the ongoing improvement of community safety, and I will work for the expansion of the City's CCTV network into more local and business communities.

In addition, I will continue to support our seniors, youth, families and environment. I also believe in keeping fees and charges as low as possible and will oppose any moves to introduce paid parking in our City.

Thank you for your support!
