

GRAY, Laura

As your councillor for the past four years my passion, enthusiasm, experience, integrity and commitment ensured that I responded to the many challenges on your behalf.

I now ask for your support to continue this commitment as our community responds to the impacts of unprecedented development.

I engage in all Council opportunities to discuss and negotiate positive outcomes for our community and environment. As chairperson of Council's environmental and waste management committees and a Mindarie Regional Council representative, I represent your interests on critical environmental and waste management issues.

I remain active in the community, engaging with Residents' Associations, and other community and interest groups including tourism, industrial and agricultural community members, to listen, help resolve issues, and facilitate positive outcomes.

My experience, and professional and business expertise provide a relevant foundation to continue engagement, and represent the interests and lifestyles of the youth, families and seniors, of our community.
