

ROBERTS, Tracey

As Deputy Mayor of the City of Wanneroo I have the experience, knowledge and leadership skills to deliver stable local government. I am actively involved in Council's strategic planning, governance and financial management.

Married with two children, I am a long-term resident of the City. I am passionately committed to the Wanneroo region and enthusiastically involved in many community and sporting organisations. I am a strong supporter of funding equity for all suburbs within the City.

Approachable and always willing to offer advice to residents and organisations, I have a keen interest in lifestyle choices for all, including safer communities, community infrastructure and economic development.

I maintain good working relationships with State and Federal politicians, of all parties, for the benefit of the City.

With qualifications in Business Management and Local Government, I offer to residents my experience, commitment, local knowledge and proven leadership to serve as your Mayor.
