

**THOMAS, Martina**

I am married with three children and eight grandchildren.

For the past 17 years I have resided within the City of Wanneroo District (Two Rocks) and relish every minute of it.

I am passionate about the community, the environment we live in, social development and what we are leaving the future generations. It is because of these values, I believe we have to be responsible and accountable for our actions of today that impact heavily on the future of tomorrow.

I believe we all have the right to clean drinking water, clean air to breath and to feel safe and secure within our community. We have the right to expect the best education, health, police and transport in our communities. I also believe that development should follow infrastructure, not the other way around.

I believe that working for and with the people in our community, we can make a difference.
