

## Draft Waste Management Strategy Information Sheet.

### What is the Draft Plan about?

The Plan sets the measures which the City plans to take over the next five years to promote effective and efficient waste management solutions that will provide the community with viable opportunities to reduce overall waste generation and divert recyclable materials from landfill.

### What are the objectives of the Draft Plan?

- Promote the delivery of efficient/effective Waste Management solutions;
- Reduce the City's ecological footprint, where possible;
- Align operations/disposal options with the principles of the Waste Hierarchy;
- Foster a Partnership Approach with community and industry;
- Develop a sound governance model for Waste Management for the City.

### Snapshot of City of Wanneroo Waste.

- On average each household produces 1.1 tonnes of domestic waste per year.
- In 15/16 56363 tonnes of domestic waste was collected
- In 15/16 16730 tonnes of recycling was collected

### What happens to the waste once it's collected?

- Domestic waste is treated at Mindarie Regional Council's Resource Recovery Facility (RRF) and processed in to a soil enhancer. Residues from this process are sent thereafter for landfill at Tamala Park – approximately 50% of all materials received at the RRF finally go to landfill.
- Recycling materials collected are treated at a private Materials Recovery Facility in Bayswater. Materials are separated and baled before onward shipping to be recycled in to new products.

### What recommendations are made in the Draft Plan?

- Measure and understand our waste
- Reduce waste to landfill 65% by 2020 (in line with the WA Waste Strategy).
- Measure and benchmark service effectiveness
- Plan for future waste solutions for the City's community.
- Increase community awareness regarding waste management and environmental sustainability.

### Where can I view the Draft Plan?

- Online at <https://www.wanneroo.wa.gov.au/consultations/133-city-of-wanneroo-draft-strategic-waste-management-plan>
- At the City of Wanneroo Civic Centre and Libraries or at Hainsworth, Banksia Grove or Yanchep Community Centre.

### How can I have my say?

- By completing an online feedback form at <https://www.wanneroo.wa.gov.au/consultations/133-city-of-wanneroo-draft-strategic-waste-management-plan>
- By completing a feedback form at the Civic Centre, Libraries, or Community Centres mentioned above.
- By writing in to the City of Wanneroo: Locked Bag 1, Wanneroo, WA 6946
