

# New Alkimos aquatic and recreation centre – Community Survey

## What you told us!

A community survey was carried out to find out how local residents want to use the proposed centre, which will be located in the Alkimos. Initial community engagement was undertaken through the City’s Web Site – “Have Your Say” between 26 November and 3 January 2021 - over 1000 submissions were received, 96% of which came from residents in the City’s northern corridor.

## What are the most popular activities you like to do?

Swim Lessons

Lap & fitness Swim

Recreation Swim

Basketball

Netball

Football

This snapshot of information and all the other data that was collected in the survey is being analysed to enable the City to carry out further research on services and facilities needed at the centre and to prepare concept plans which are expected to be presented for further community comment later in 2021.
