Policy Development and Purpose

This policy has been prepared under Schedule 2, Part 2 of the Deemed Provisions of the *Planning and Development (Local Planning Schemes) Regulations 2015* and is to be read in conjunction with the City of Wanneroo's (the City) District Planning Scheme No. 2 (DPS 2).

The purpose of this policy is to provide a framework for the design, placement and assessment of advertising signs (signs) within the City.

Advertising Sign: means a sign in the form of a type specified below for the purpose of advertising or promoting a business or its products, and includes estate signage.

Objectives

1. To ensure that the visual quality and character of particular localities and transport corridors are not eroded;
2. To achieve advertising signs that are not misleading or dangerous to vehicular or pedestrian traffic;
3. To minimise the total area and impact of outdoor advertising commensurate with the realistic needs of commerce for such advertising;
4. To prohibit outdoor advertising which is considered to be superfluous or unnecessary by virtue of their number, colours, height, prominence, visual impact, size, content and relevance to the premises on which they are located;
5. To reduce and minimise clutter; and
6. To promote a high standard of design and presentation in outdoor advertising.

Exemptions

If a sign complies with one of the following it is exempt from the need to obtain development approval:

- All the relevant provisions of this policy, in accordance with clause 61(1) of the Deemed Provisions,
- Signs within a signage panel previously approved by the City, in accordance with clause 61(1) of the Deemed Provisions; or
- All the relevant provisions of Schedule 4 of DPS 2, *refer Attachment 1*.

**The exemptions specified above do not apply to signage proposed in a digital format, unless specifically exempt under the digital signage exemptions contained within Part 2 of this Policy.*

PART 2 - GENERAL POLICY PROVISIONS

General Development Standards

1. In general, advertising signs shall:
 - Not contain any offensive material¹;
 - Not be affixed to boundary walls or fences;
 - Not extend beyond the boundary of the lot on which they are situated;
 - Relate to the site on which they are located; and
 - Integrate with the building design, particularly through the provision of signage panels within the building facades, wherever possible.
2. A sign that fits within the definition of more than one sign type shall be assessed against the criteria the City considers most applicable.
3. The area of a sign is to be measured as the greatest horizontal dimension multiplied by the greatest vertical dimension, excluding any support structures.

Signage Strategy

A signage strategy is an overall plan for a development site or structure plan area and shall be submitted with an application for development approval when:

- The sign/s relate to a subdivision or development estate which proposes more than ten lots;
- The sign/s relate to a display home or village; or
- The number of signs for a development site (existing and proposed) exceeds a total of four.

A signage strategy should incorporate the location, type, size and design of all existing and proposed signs, depicted on site and elevation plans. Justification should be provided on the need for the number and design of signs proposed, having regard for the relevant policy provisions and objectives.

Digital Signage

The City may consider applications for digital signage in the following circumstances:

1. Pylon Signs and Wall Signs associated with schools, tafes or colleges, outdoor recreation (e.g. golf course), places of worship and tourist locations²;
2. On Commercial zoned land identified as a Neighbourhood Centre or above under DPS 2 or an applicable structure plan, or Business zoned land within an Integrated Business Centre³, limited to the following:
 - One Pylon Sign per street frontage;
 - One Wall Sign per street frontage; and
 - One Window Sign per tenancy.

1. *Offensive material is content deemed by the City to be objectionable, violent, insulting, obscene or defamatory to most people, or a particular group of people.*

2. *Tourist location: refers to places where visitors typically visit for the natural, cultural or historic value while also offering leisure and amusement at a regional or sub-regional level and is determined at the discretion of the City.*

3. *Integrated Business Centre: refers to a continuous area of Business zoned land greater than 10,000m².*

Exemptions

The following digital signage is exempt from requiring development approval:

- Pylon Signs associated with a school, tafe or college located on a Local Distributor road or lower, where the proposal complies with the relevant policy provisions outlined in Parts 1-3.
- Window Signs within a Commercial or Business zone, where the proposal complies with the relevant policy provisions outlined in Parts 1-3.

Assessment Considerations

- Unless outlined above, applications for digital signage are required to obtain development approval and will be assessed against the most applicable sign type to which the sign relates (Part 3), as well as all other relevant policy provisions.
- Digital Pylon and Wall signage infrastructure on Business or Commercial zoned land shall be located and designed for reciprocal use by all tenancies within a Centre. This is to ensure signage is designed and located to maximise its community benefit and minimise visual clutter.
- Applicants are required to provide information on the proposed luminance of a digital sign. At the request of the City, an applicant may be required to provide a Lighting Impact Assessment to demonstrate that the signs luminance does not affect the amenity of nearby sensitive land uses.
- Digital signage is not permitted to display third party advertising material in accordance with Part 2 of this policy.
- Digital signage applications may also be required to demonstrate they are safe from a road safety perspective. Applicants should contact the City to determine if any road safety information or assessment is required prior to formally submitting an application.

Third Party Signage

Notwithstanding the above, the City may consider an application for third party digital signage in the following circumstances:

Activity Centres

A Wall or Pylon Sign located within a Strategic, Secondary or District Centre. In such circumstances the signage should be located centrally within the Centre and integrated with the built form.

The signage should also be oriented towards a pedestrianised environment, be designed to complement the character of the Centre, not detract from any existing signage and add visual interest and amenity to the locality, in addition to satisfying all other applicable standards of this policy.

Regional Transport Corridors

A Pylon Sign located within, or directly adjacent to, a Primary or Other Regional Road reserve. In such circumstances the sign should not be visible from any existing or proposed public open space (local or regional) or sensitive land uses, and shall not detract from the character and amenity of the locality.

In addition, the proposal will require support from the owner/manager of the transport corridor and demonstrate that it does not conflict with any traffic signals or create a road safety issue, in addition to satisfying all other applicable standards of this policy.
