EST 1992

General Notes

Site landscaping will encompass:

- * the retention of existing trees
- * additional soft landscaping
- * walking paths and restful seating
- * solar lighting
- * bush play areas
- * rest berms along the elevated path
- * wayfinding signage
- * signs informing of plant species
- * story telling areas
- * kindness rocks

Plants to be introduced will primarily:

- * be coastal native species
- * have low water requirements
- * be attractive to birds and wildlife
- * have some wind attenuation
- * provide some seasonal colour
- * include some bush tucker plants
- * be mass planted. in drifts

Reception Building

- * water feature
- * scented flower plantings
- * bridge
- * slatted seating

Paving and paths

- * A mix of materials to suit various locations including
 - * reconstituted and compacted limestone
 - * compacted gravel
 - * brushed concrete in panels
 - * stone crazy paving

Main building area

- * the large lawn area provides a place for small events and community activities
 - * concerts and weddings
 - * yoga and tai chi etc.
 - * this area will be reticulated and maintained
 - * uninterrupted views over the coastal reserve
 - * open to allow for marquees and event lighting
 - * flat for the placement of tables and chairs
- * succulents in planters along the dining areas
- * a herb garden
- * lemon, lime and mandarin trees for restaurant use
- * bush tucker plants
- * a large date palm at the entry
- * multi directional wayfinding signs with a beach theme
- * afternoon sun umbrella fixings
- * bike hanging racks

Site Overview

Site Sections

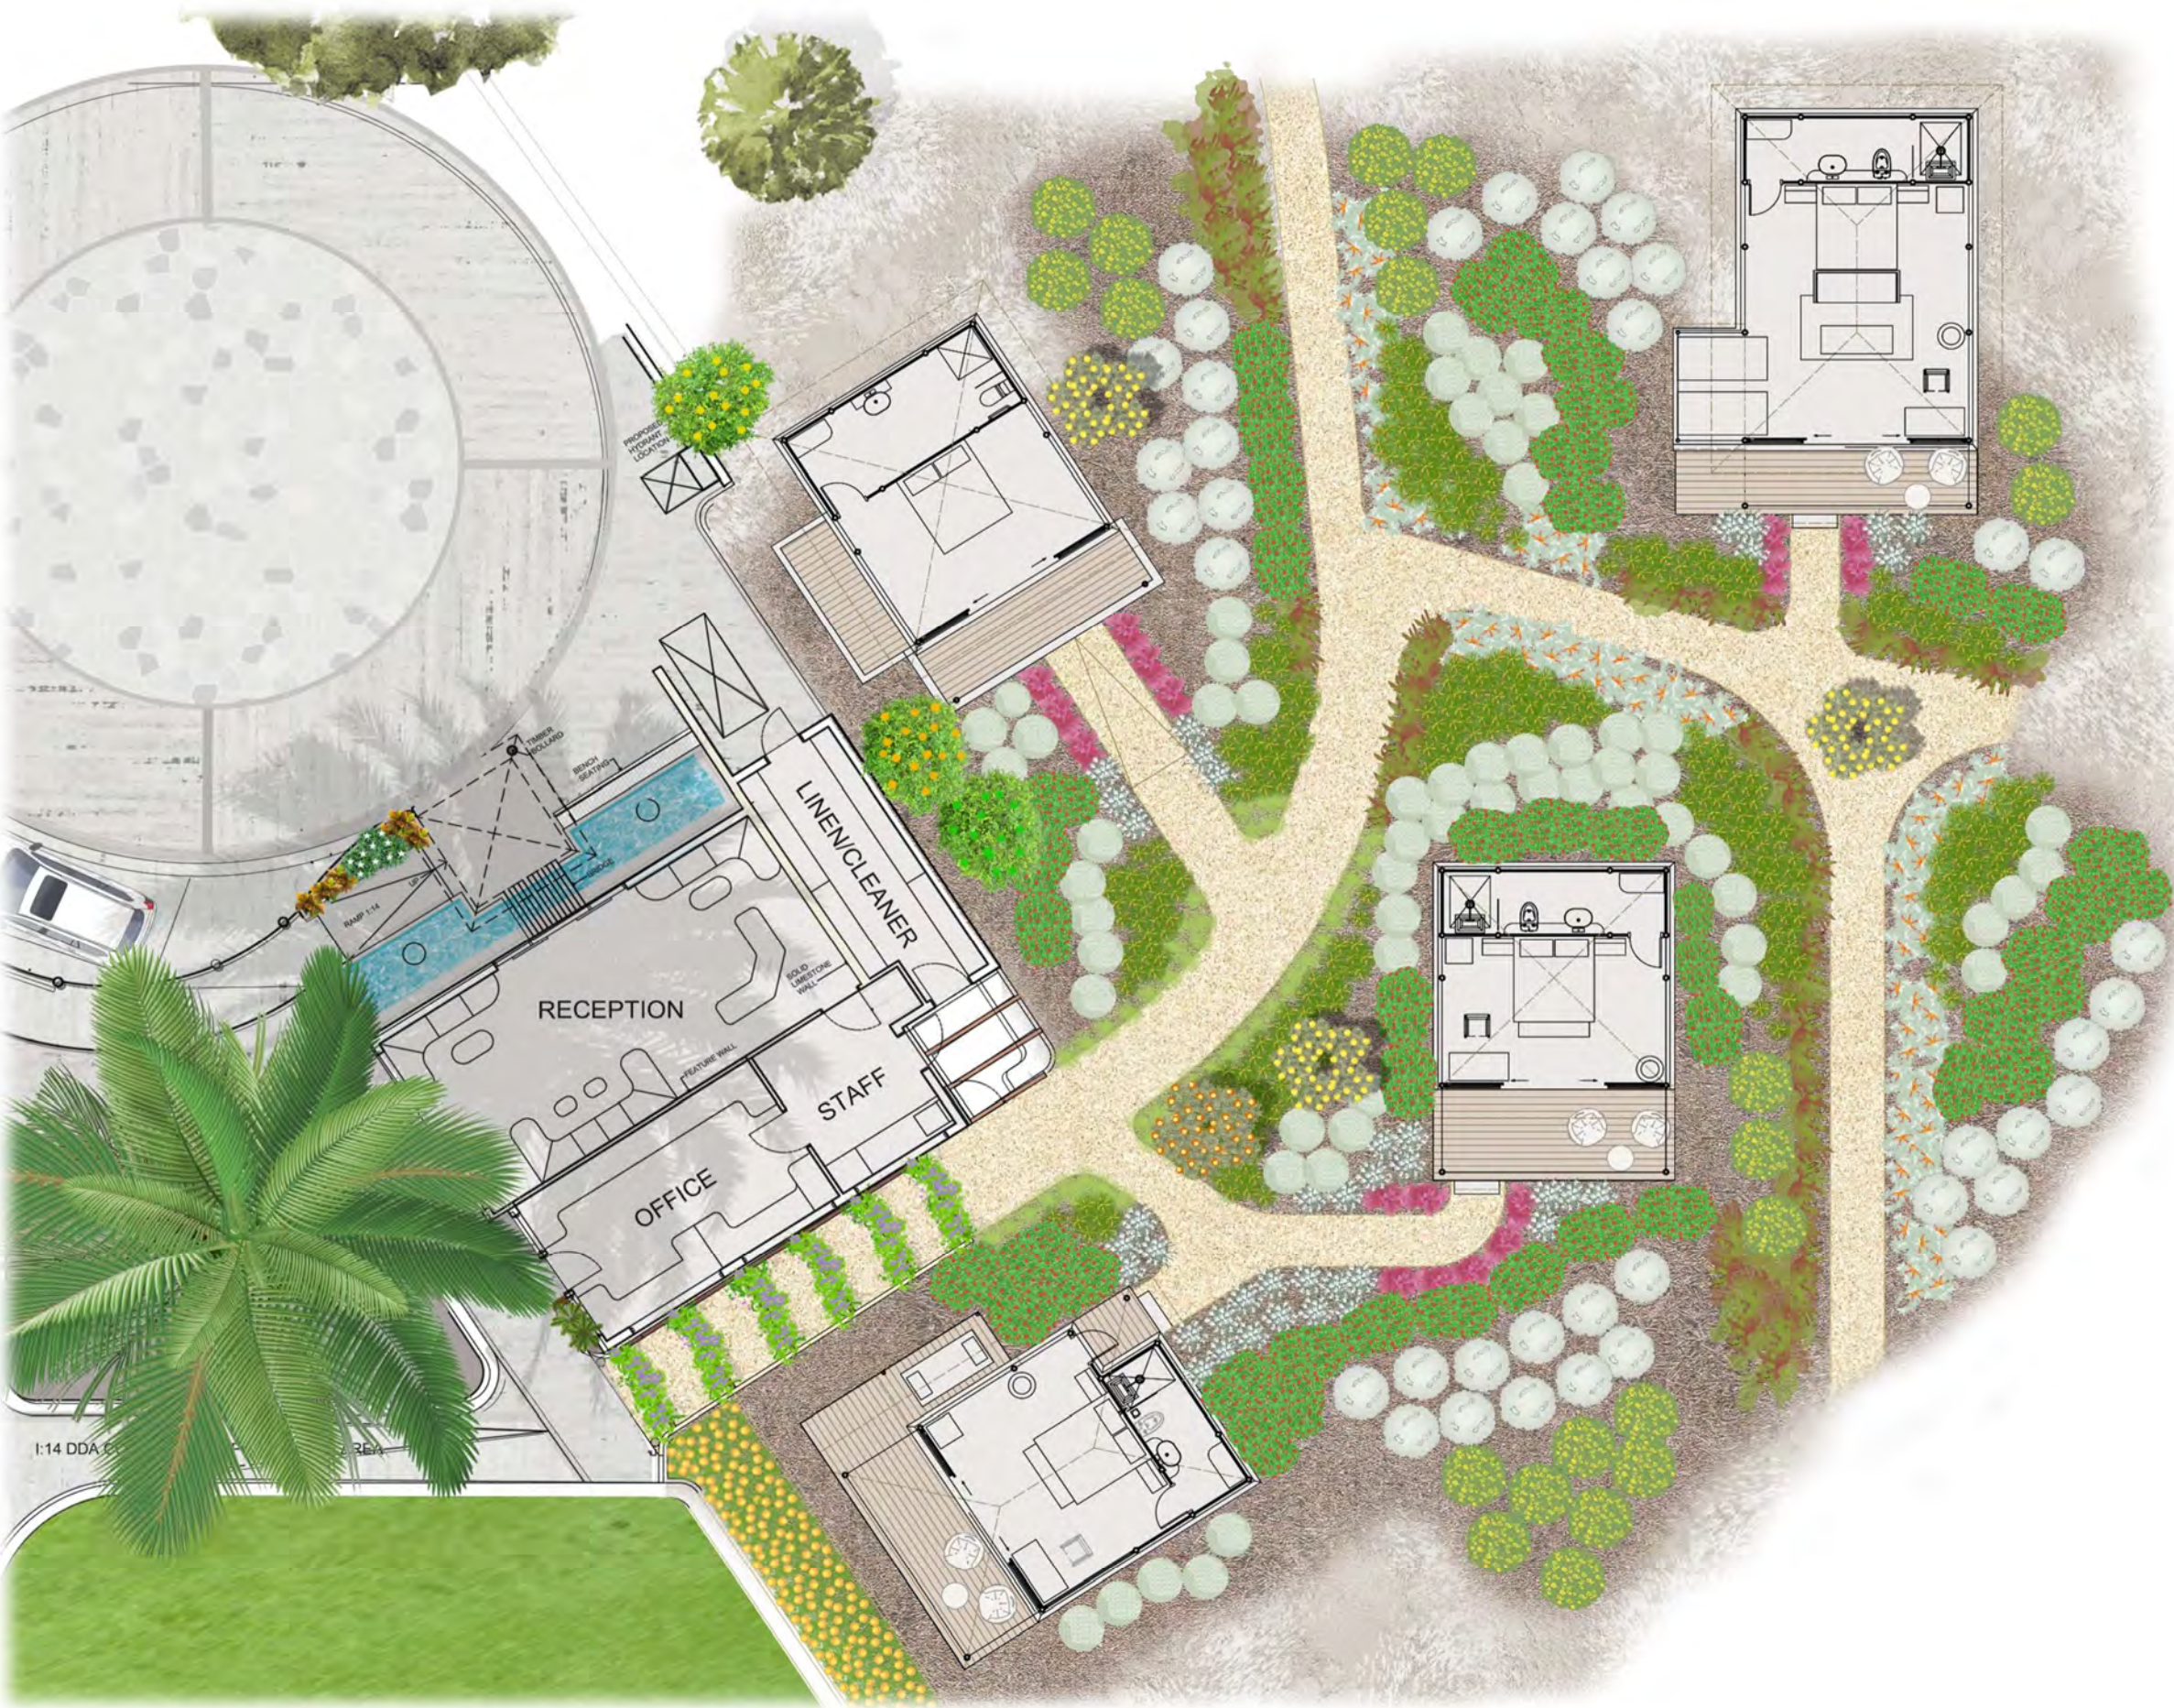

Retaining Wall

-  Asparagaceae lomandra confertifolia
Little Lime
-  Asparagaceae lomandra longifolia
Lomandra Tanika
-  Casuarinaceae casuarina glauca
Cousin It
-  Fabaceae hardenbergia comptoniana
Native Wisteria
-  Haemodoraceae anigozanthos
Kangaroo paw Bush Diamond
-  Myrtaceae Callistemon viminalis
Bottle Brush Little John
-  Xanthorrhoeaceae xanthorrhoea preissii
Grass Tree

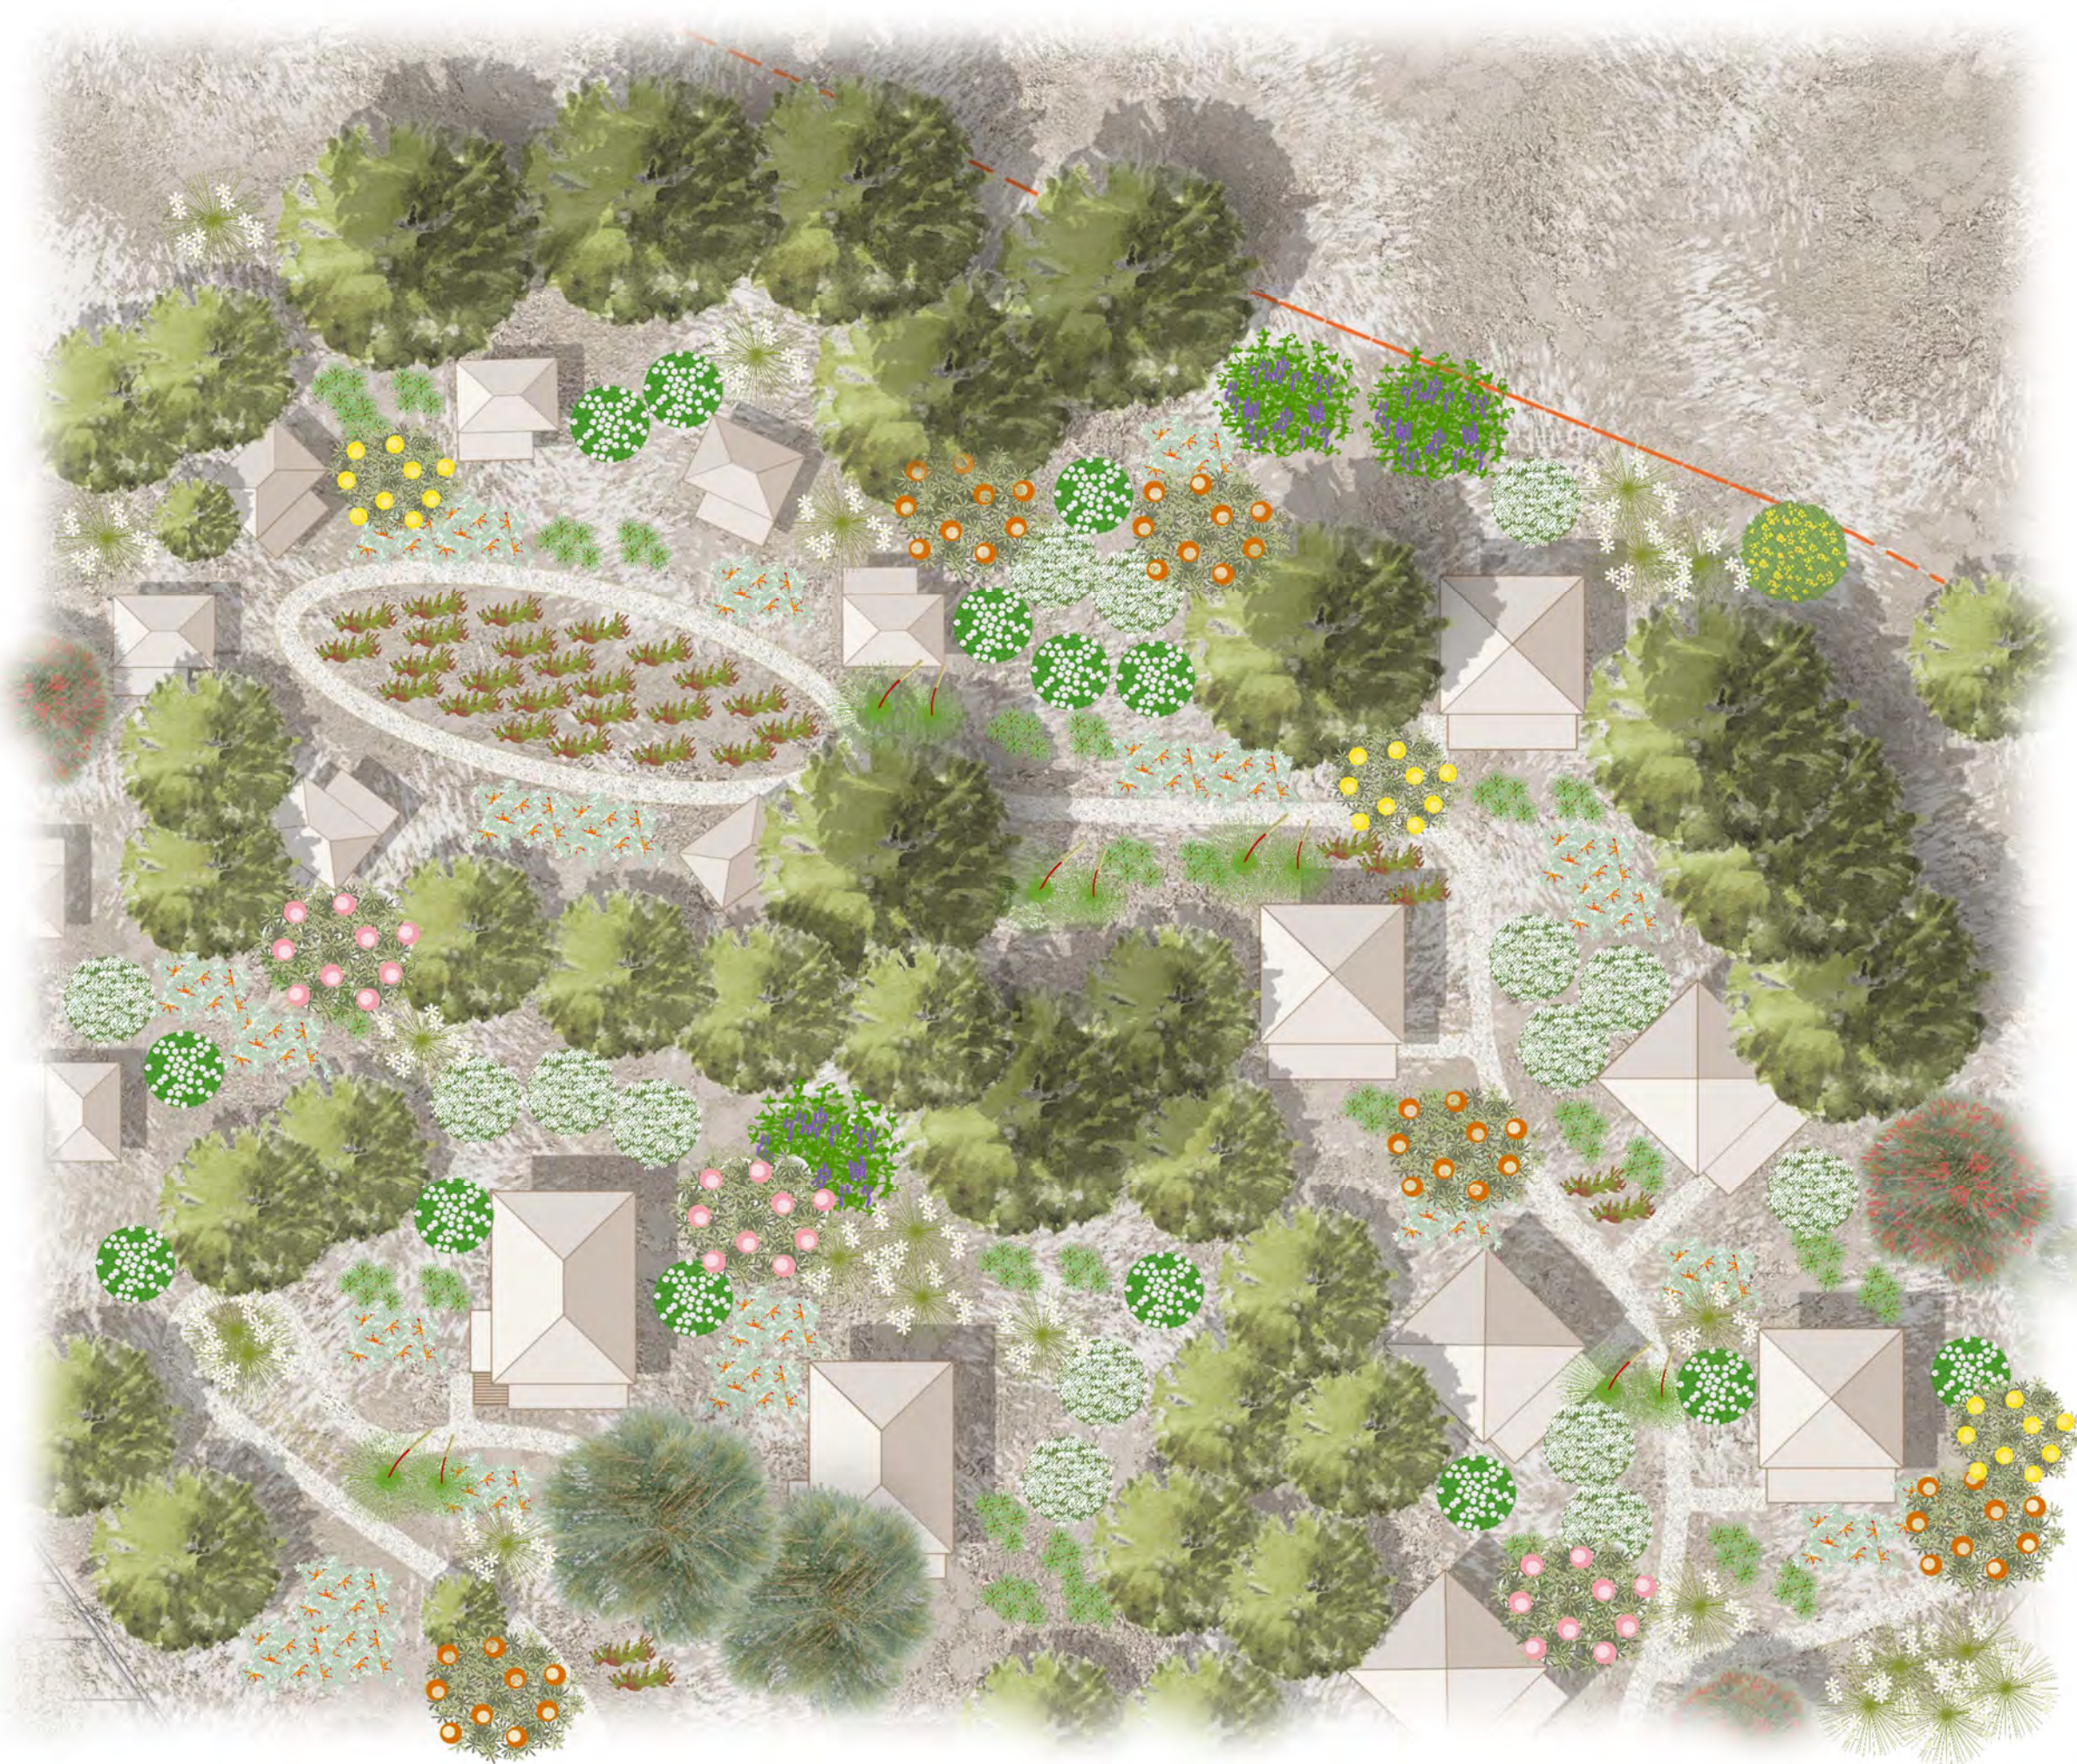

Glamping Entry

-  Aizoaceae
Carpobrotus virescens
Coastal Pigface
-  Amaranthaceae
Alternanthera brasiliana
Little Ruby
-  Asparagaceae
Lomandra confertifolia
Little Lime
-  Asparagaceae
Lomandra longifolia
Lomandra tanika
-  Asteraceae
Olearia axillaris
Coastal Daisy Bush
-  Casuarinaceae
Casuarina glauca
Cousin It
-  Colchicaceae
Burchardia congesta
Milkmaids
-  Cyperaceae
Lepidosperma gladiatum
Coastal Sword Sedge
-  Fabaceae
Acacia chochlearis
Rigid Wattle
-  Fabaceae
Hardenbergia comptoniana
Native Wisteria
-  Haemodoraceae
Anigozanthos
Kangaroo Paw Bush Diamond
-  Myrtaceae
Darwinia citriodora
Lemon Scented Darwinia
-  Myrtaceae
Callistemon viminalis
Bottle Brush Little John
-  Proteaceae
Banksia ashbyi
Ashby's banksia
-  Proteaceae
Banksia attenuata
Candle or Slender Banksia
-  Proteaceae
Banksia menziesii
Firewood Banksia
-  Proteaceae
Banksia spinulosa
Birthday Candles
-  Proteaceae
Conospermum triplinervium
Smoke Bush
-  Proteaceae
Grevillea
Crithmifolia
-  Scrophulariaceae
Eremophila glabra
Tar Bush - Kalbarri Carpet
-  Xanthorrhoeaceae
Xanthorrhoea preissii
Grass Tree

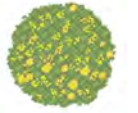

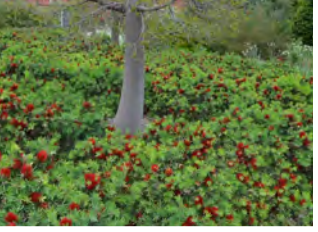

Glamping General - Existing Bushland underplanted with more Native Species

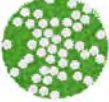

-  Aizoaceae

Proteaceae Banksia spinulosa	Birthday candles			
Proteaceae Conospermum triplinervium	Smoke bush Tree smoke bush			
Proteaceae Grevillea	Grevillea crithmifolia			

Family Genus/ Species	Common Name	Symbol	Plant	Flowers Seeds
Scrophulariaceae Eremophila glabra	Tar bush Emu bush Kalbarri carpet			
Xanthorrhoeaceae Xanthorrhoea preissii	Grass Tree			

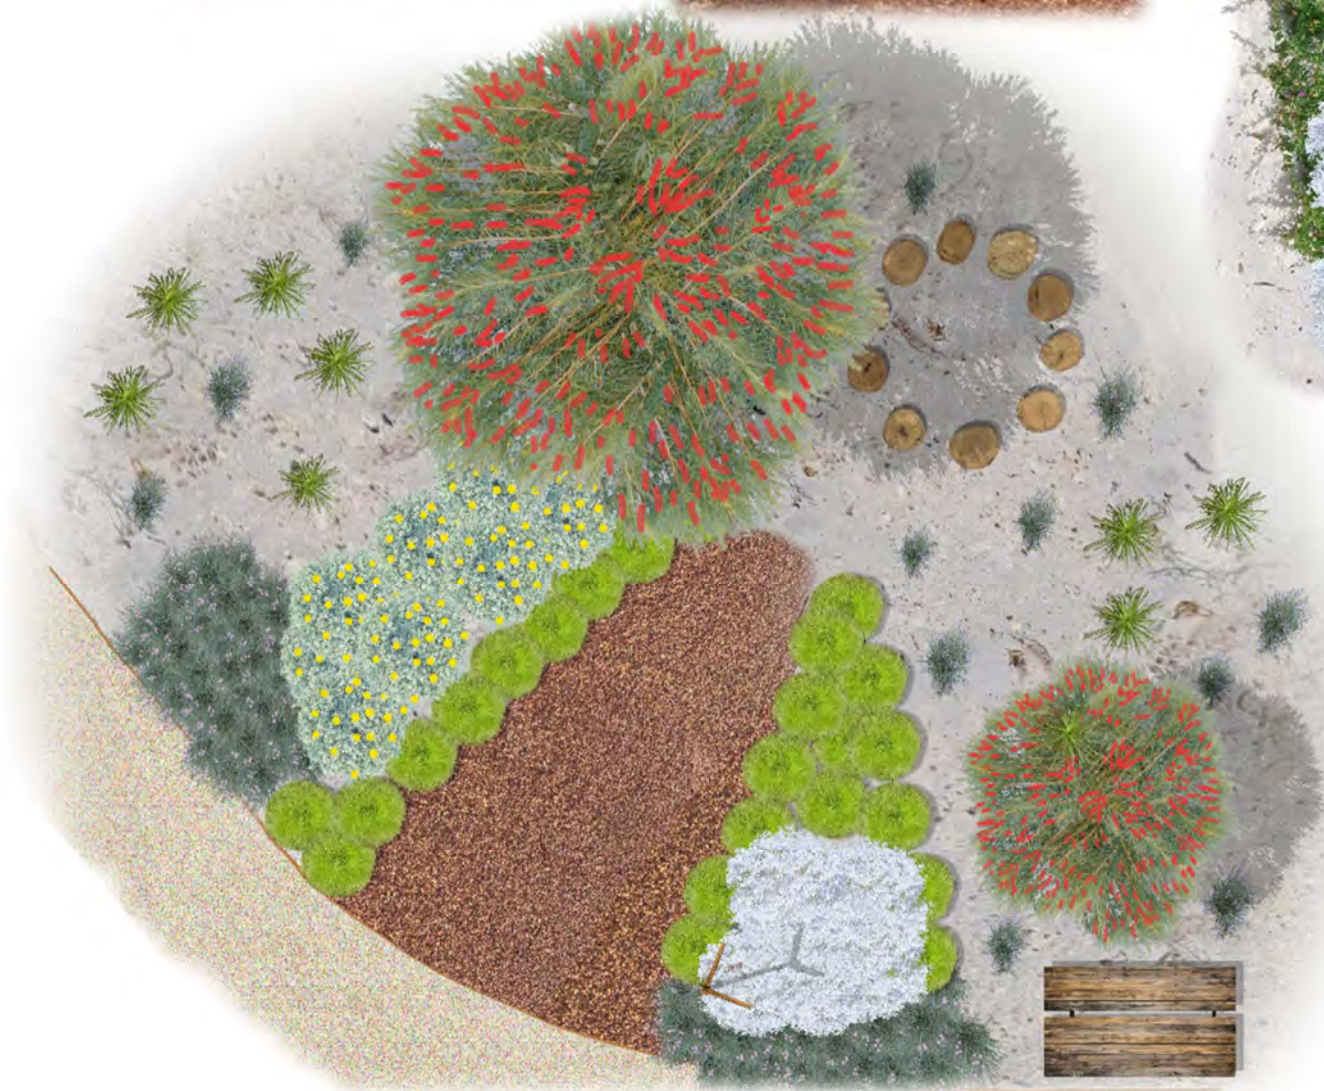

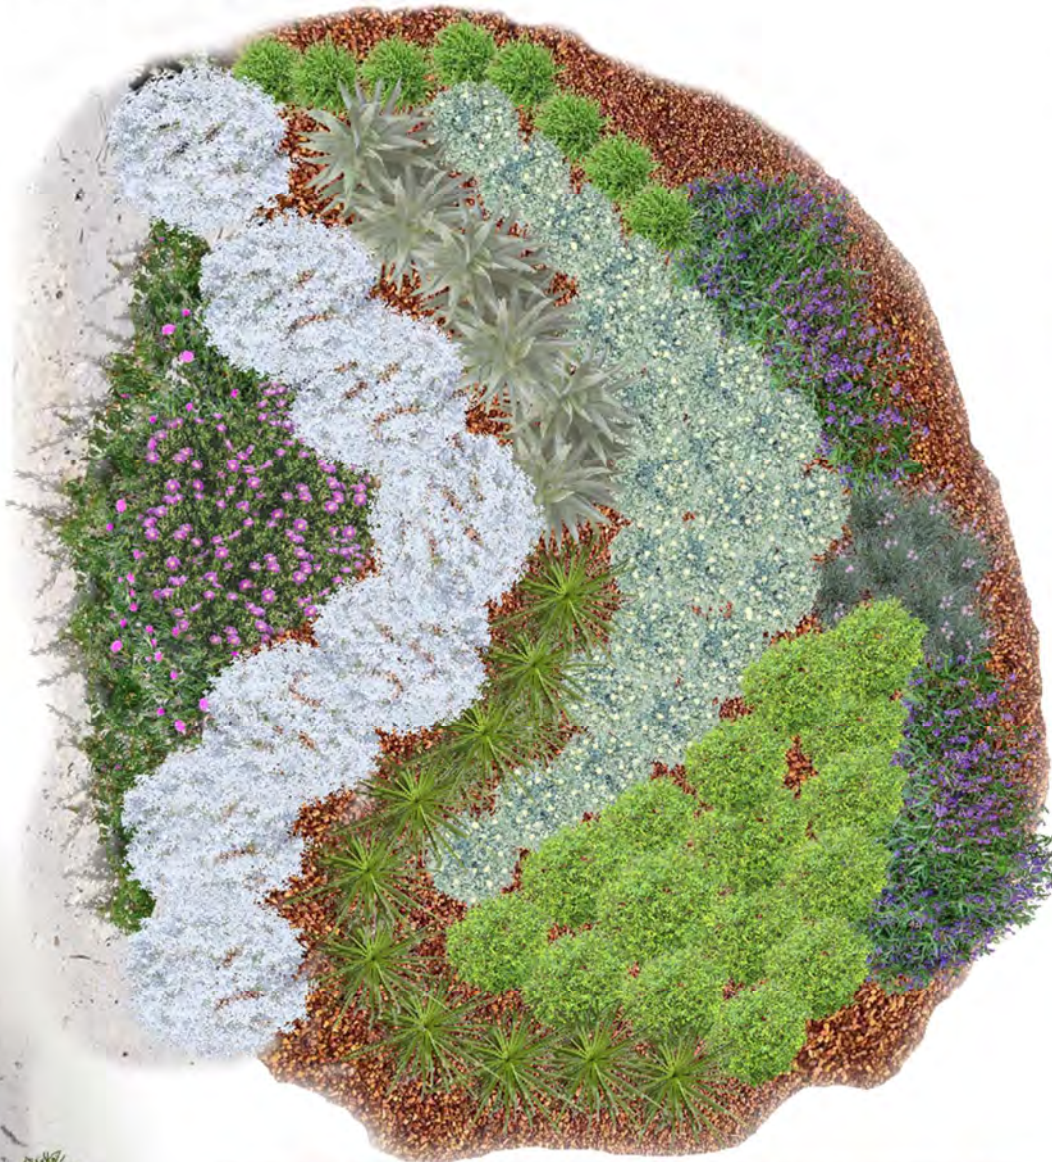

Paving

Glamping Area

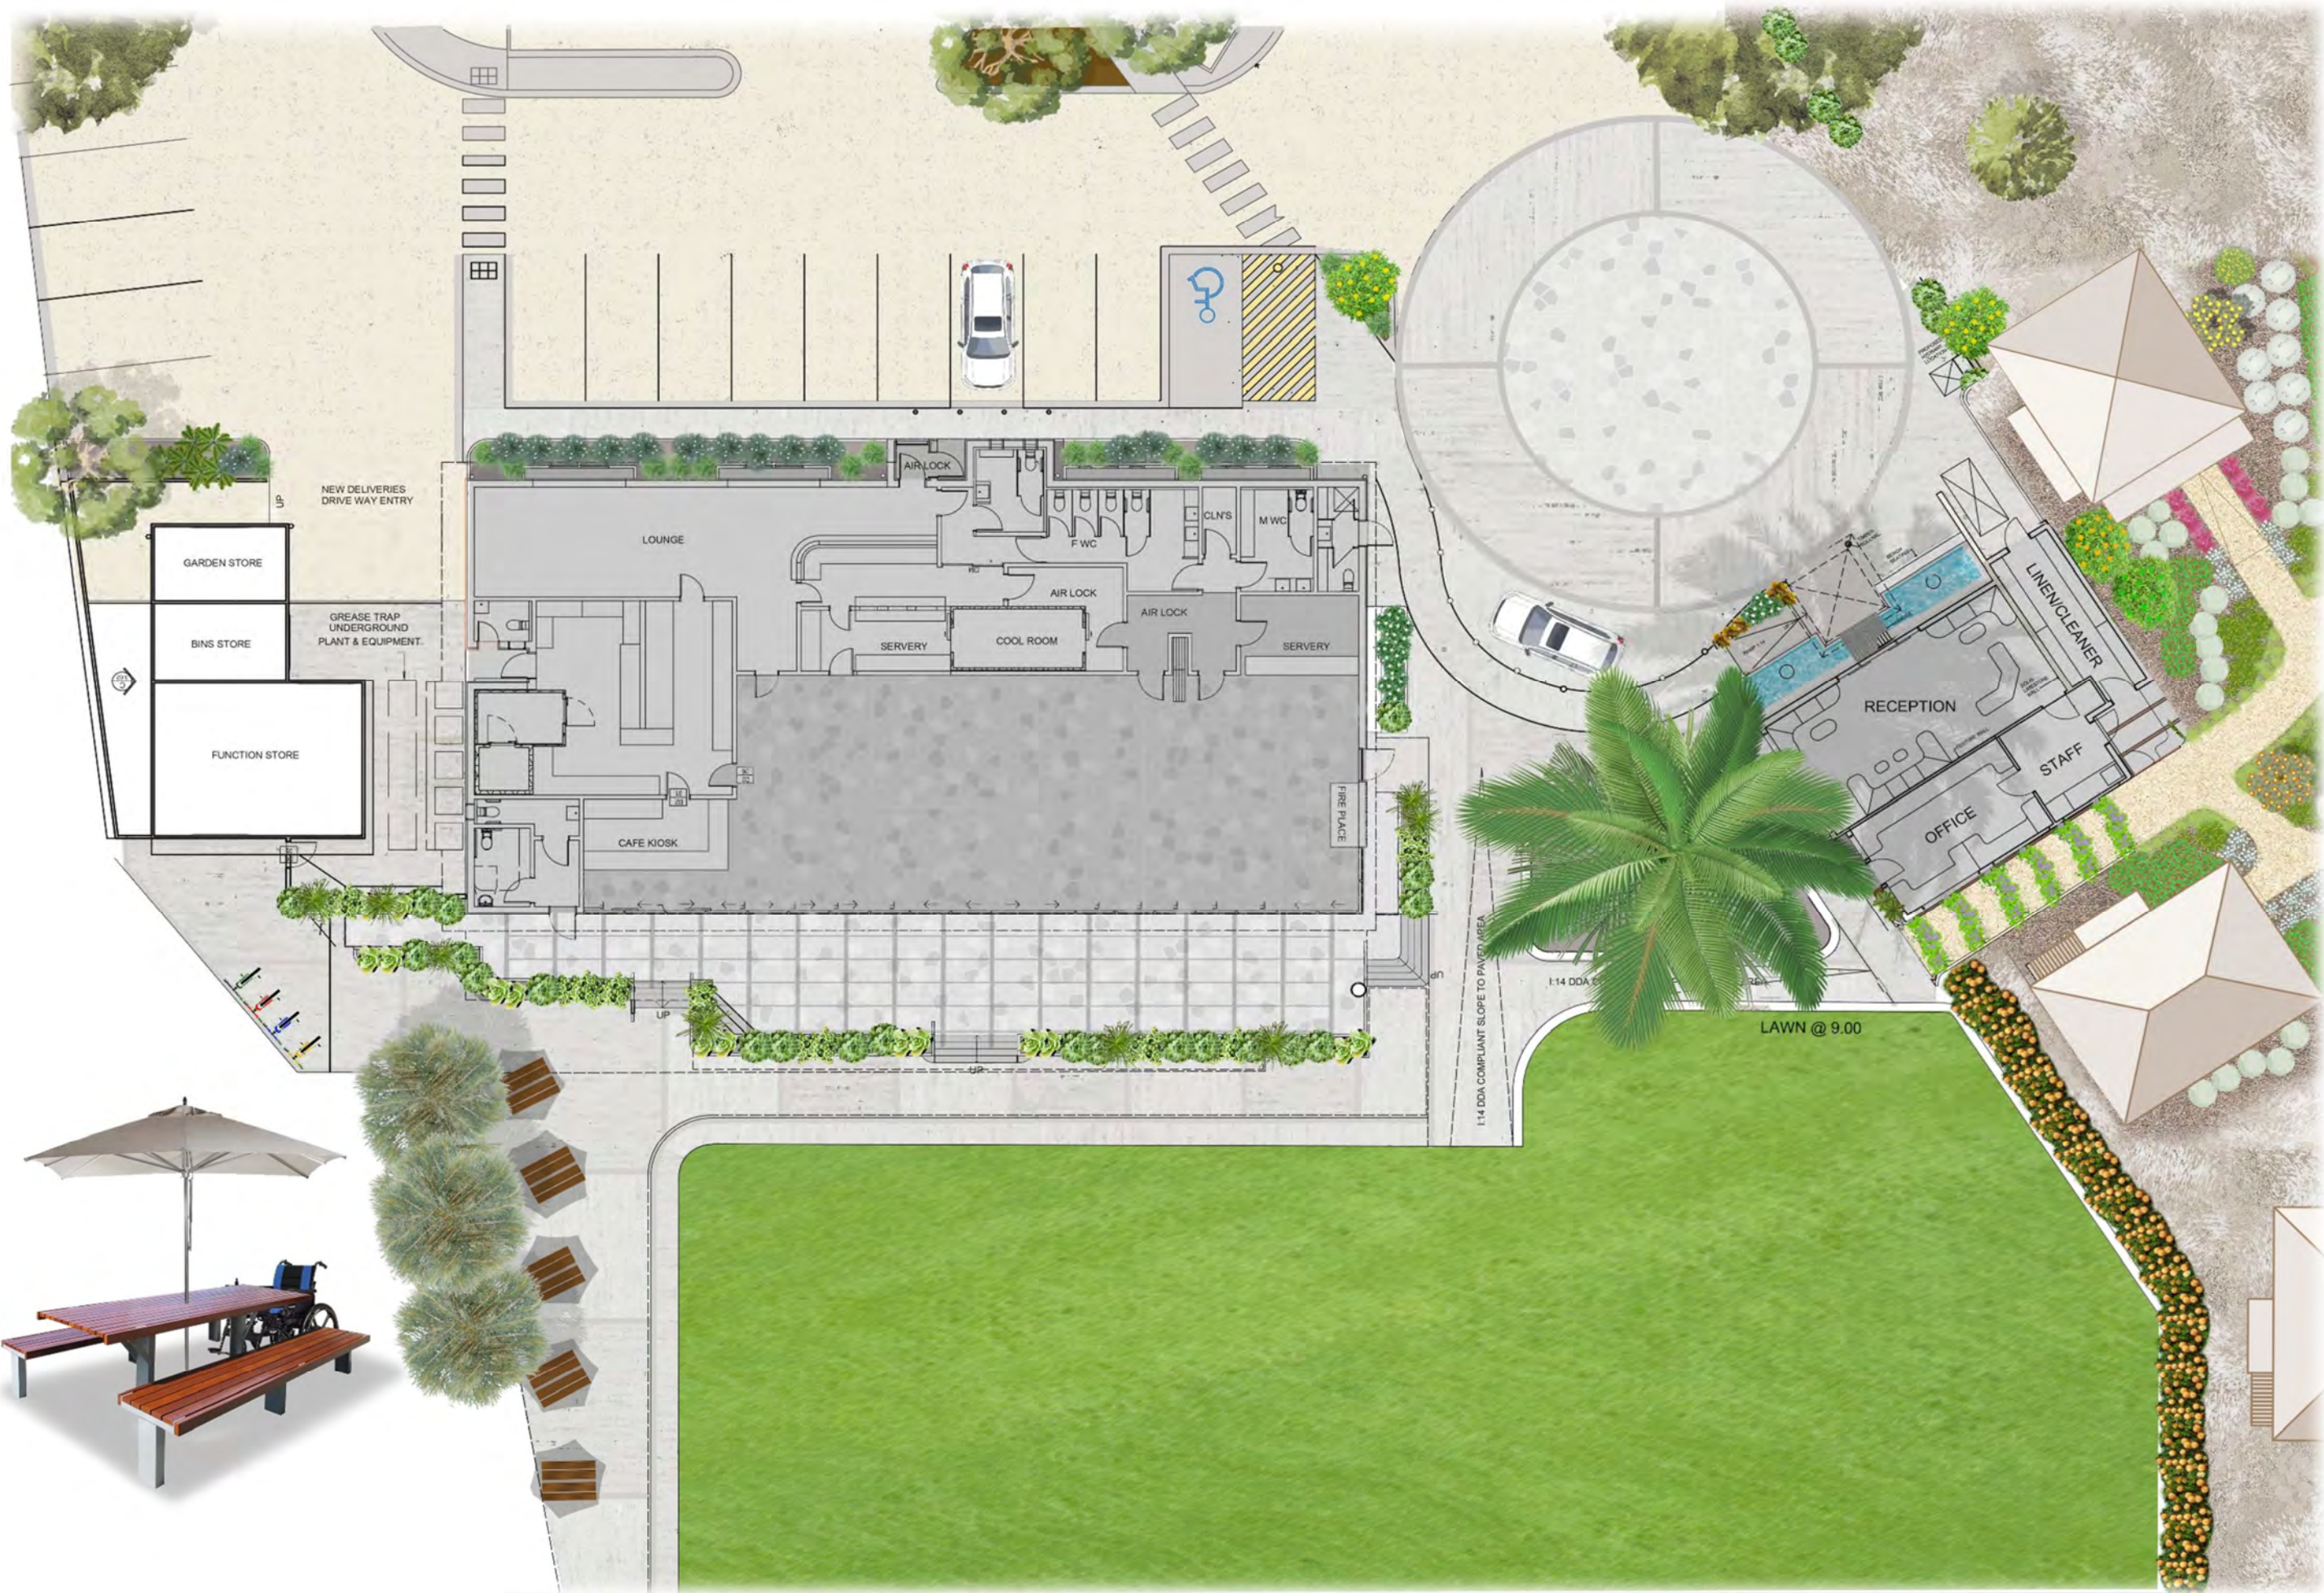

The design objective is to enhance the natural bush by adding more plants and trees, and to add feature gardens of mass plantings with an emphasis on local flora attractive to insects, birds and small animals. These spaces will include shade and places to rest; areas for children and adults to engage in story telling; and places for children to play.

Various native flora will be used to provide barriers between public and private areas and many smaller trees introduced for shade throughout the grounds. Timber bridges over low places along paths will add an aesthetic feature and a place for small fauna to rest.

Main Building Area

Summer reticulation

Planting Palette

Main Building

Dichondra argentea

Succulents

Lomandra - Little Lime

Banksia Spinulosa - Birthday Candles

Sea Celery

Native Lemongrass

Hardenbergia - Native Wisteria

Crotons

Gardenias

Youlk - Ravensthorpe Radish

Reception and attached gardens
