

Blue line indicates where the privacy screening will be installed.

It will be connected to a frame that will sit below the 1.8 fence height, the frame will not be seen from the neighbour's side.

Blue box shown below to show where the screening will be placed. See other image of screening we wish to use which is a ekodeck screening in composite (Page 3)

Sizing to be 7.4 metre wide and 2.2 metre in height. Height of current fence is 1.7metre on our side. Screening to be Applied to boundary fence. We are wanting to place a pool in this area hence also extending the height for compliance and privacy.
