Dear Sir/Madam

**COMMUNITY CONSULTATION
TRAFFIC MANAGEMENT TREATMENTS – ANCHORAGE DRIVE (SOUTH)**

The City is planning to install traffic management treatments on Anchorage Drive (south) and would value your feedback on what is proposed. This letter provides some background and details of the planned scheme, to make it easier for you to provide your comments.

The proposed traffic management scheme involves the installation of painted cycle lanes between Rosslare Promenade and Swansea Promenade/Honiara Way and planting trees in the existing median between Swansea Promenade/Honiara Way and Ocean Falls Boulevard.

The reduction in road width achieved by installing cycle lanes may be effective in reducing vehicle speeds which in turn leads to safer roads. While it is expected that the impact in reducing vehicles speeds may be less than other traffic treatments, the installation of cycle lanes will cause minimal disruption to surrounding residents in terms of additional traffic noise, and the associated tree planting can create a closed environment and encourage voluntary reduction in vehicle speed.

The concept plan and further updates can be viewed online by following the link on the City's website at www.wanneroo.wa.gov.au/trafficprojects or hard copy of the plan can be viewed at the Clarkson Library. Should you require a hard copy of the plan for your reference, please contact the City's Traffic Services on 9405 5000.

You can provide your comments on the proposed traffic management scheme by providing your feedback online at <https://www.surveymonkey.com/r/anchorage2> by email to enquiries@wanneroo.wa.gov.au or by completing the included survey questionnaire and returning it to the City in the enclosed reply-paid envelope, by no later than **Tuesday 7 June 2016**.

Once the public comment period has closed, the City will consider the feedback received and make a decision on the project. You will be notified about the construction work prior to the start of construction.

Should you have any further queries regarding this matter, than please contact the City's Traffic Services team on 9405 5000.

Yours sincerely

Manoj Barua
COORDINATOR TRAFFIC SERVICES
Att. Community Consultation Questionnaire

(Please return to the City by Tuesday 7 June 2016)
