

# Smart Cities: A Framework for Unlocking Growth & Prosperity

Adam Beck, Executive Director

@adambeckurban  
@smartcitiesanz

# Our Vision

A dark blue silhouette of a city skyline, featuring several prominent skyscrapers, is positioned along the left edge of the slide, extending from the bottom to the top.

We envision a world where digital technology, data, and intelligent design have been harnessed to create smart, sustainable cities with **high-quality living** and **high-quality jobs**.

We promote cities that embody our three core values – liveability, workability, & sustainability

A light gray silhouette of a city skyline, featuring several prominent skyscrapers, is positioned along the bottom edge of the slide, extending from the left to the right.

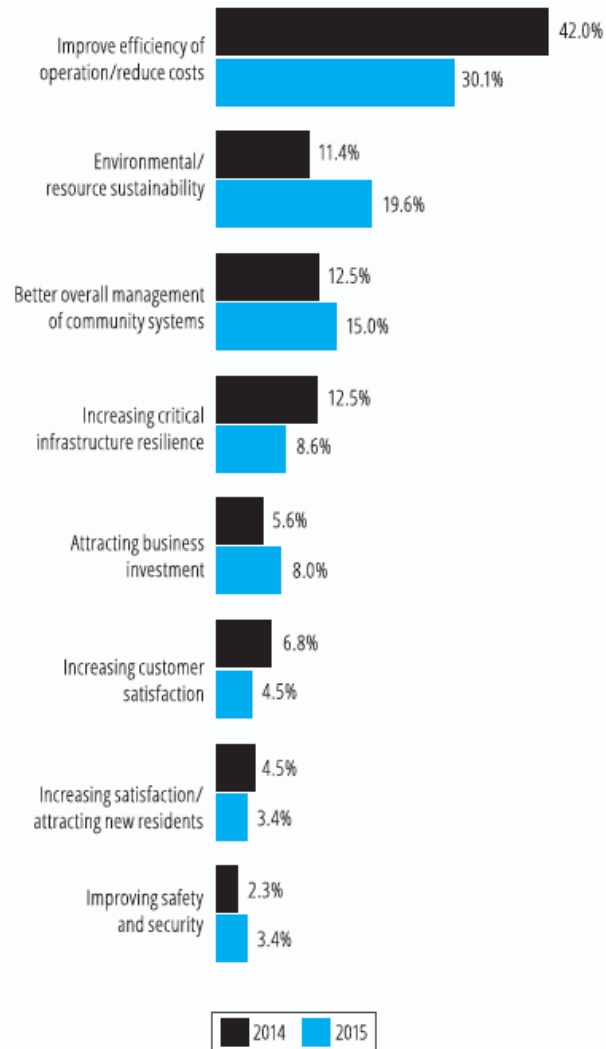

The world is  
**not**  
waiting...

# What do you see as the primary driver for cities to implement smart city initiatives?

What do you see as the primary driver for cities/ communities to implement smart city initiatives?

(Select one choice) [Government/Municipalities Only]

# The smart 'infrastructure' lens

Smart monitors and controls across all aspects of city life are set to transform the urban landscape

- Transport
- Environment
- Buildings
- Infrastructure
- Utilities
- Life

**23 FIRE SAFETY**  
Fire detection and intelligent extinguishing tailored to each room

**22 STRUCTURAL HEALTH**  
Monitoring vibrations/material conditions in buildings and infrastructure

**21 ELECTRIC TRANSPORT**  
Electric vehicles and public transport, with charging stations across the city

**20 SMART LIGHTING**  
Intelligent and weather-adaptive streetlights

**19 TRAFFIC CONTROL/SMART ROADS**  
Monitoring vehicles/pedestrian levels to optimise or divert traffic according to conditions

**18 FAST LANES**  
Intelligent, adaptive fast and slow lanes for walking and cycling

**17 LANDSLIDE AND AVALANCHE PREVENTION**  
Monitoring soil moisture, vibrations and earth density

**16 WATER LEAKAGE DETECTION**  
Detecting liquid presence outside tanks and pressure variations along pipes

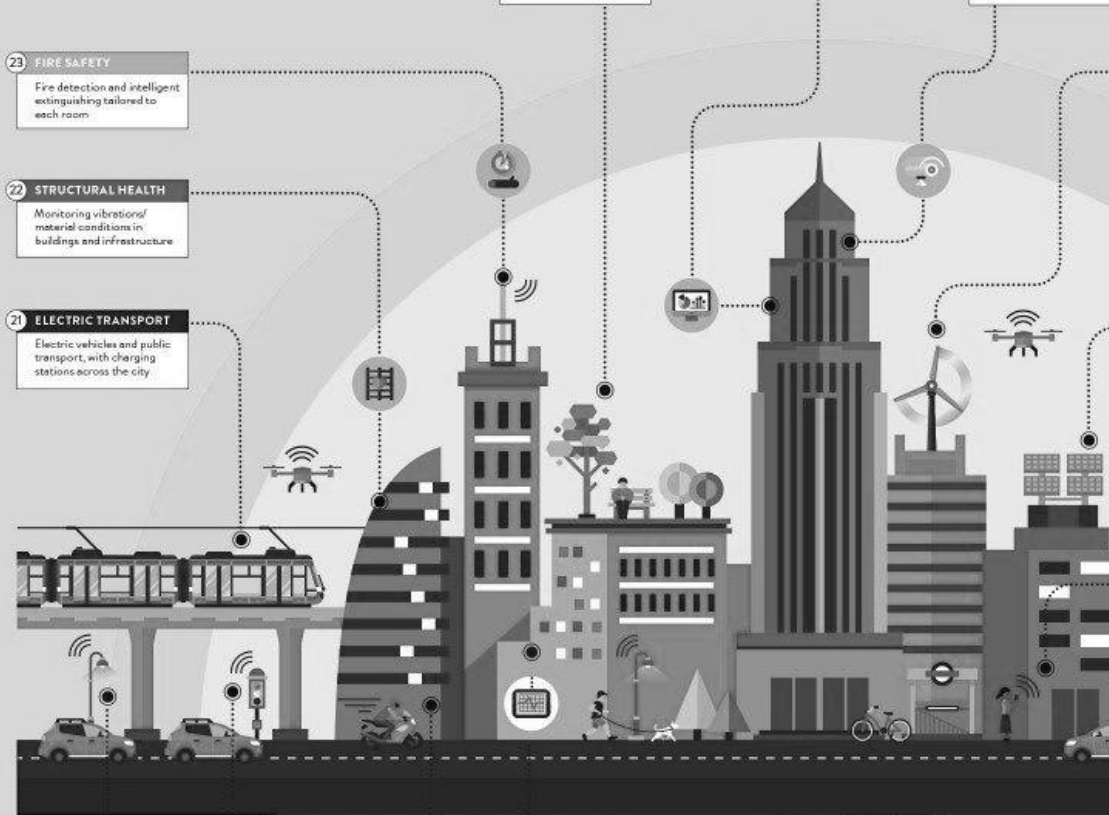

**15 WI-FI**  
Citywide free wi-fi for public use, including wi-fi on the Tube/Metro

**14 POTABLE WATER MONITORING**  
Monitoring the quality of tap water across the city

**01 GREEN BUILDINGS**  
Rooftop gardens or vegetation on the side of buildings to help insulation, absorb CO<sub>2</sub> and produce oxygen

**02 BUILDING MANAGEMENT**  
Automation and optimisation of services such as heating, energy usage, lighting and ventilation

**03 PERIMETER ACCESS CONTROL**  
Controlling access and monitoring of restricted areas with CCTV, intruder detection and alarms

# The smart 'people' lens

# A smart city is one that...

...**dramatically increases the pace** at which it improves its sustainability and resilience,

...by fundamentally improving how it **engages society**, how it applies **collaborative leadership** methods, how it **works across disciplines and city systems**, and how it uses **data, intelligent design and integrated technologies**,

...in order to **transform services and quality of life** to those in and involved with the city (residents, businesses, visitors).

Regions  
cannot  
compete  
without **smart  
infrastructure**

**Regions account for a third of  
Australia's workforce**

**Accounts for approx. 40% of national  
economic output**

**Highest output per worker in a third  
of industries**

**Realising the potential of our regions  
is critical**

Smart infrastructure  
is the foundation for  
future success,  
better paying jobs, &  
a new era of  
prosperity

Haas Alert offers a vehicle-to-vehicle, cloud-based communication platform to alert vehicles of an approaching first responder unit. With a proprietary method of determining whether or not a particular vehicle is Code 1 and at what speed it is traveling, Haas Alert helps increase response time, minimize collateral collisions, and save lives. Test programs are currently live in Chicago and Palo Alto.

# Smart infrastructure unlocks prosperity for our cities and towns

// 13,000 jobs for every \$1B invested in federal highway & transit infrastructure

// 12,000 job-years of employment for every \$1B investment in wireless infrastructure

// Nearly 50,000 jobs for smart grids funded through American Recovery Act

// 10-15 jobs per \$1M investment in alternative water supply projects

// 5-20 jobs per \$1M investment in stormwater management

# **FIVE STRATEGIES FOR UNLOCKING THE SMART CITY**

1. Develop the vision & capacity to innovate
2. Aggregate demand
3. Rigorous sustainability metrics
4. Embrace new financial models
5. Urban transformation pilot projects

# **FIVE STRATEGIES FOR UNLOCKING THE SMART CITY**

1. Develop the vision & capacity to innovate
2. Aggregate demand
3. Rigorous sustainability metrics
4. Embrace new financial models
5. Urban transformation pilot projects

Develop the **VISION**, and the capacity

“We cannot allow  
regulation to catch  
up with  
innovation.”

*Debra Lam  
Chief of Innovation & Performance  
City of Pittsburgh*

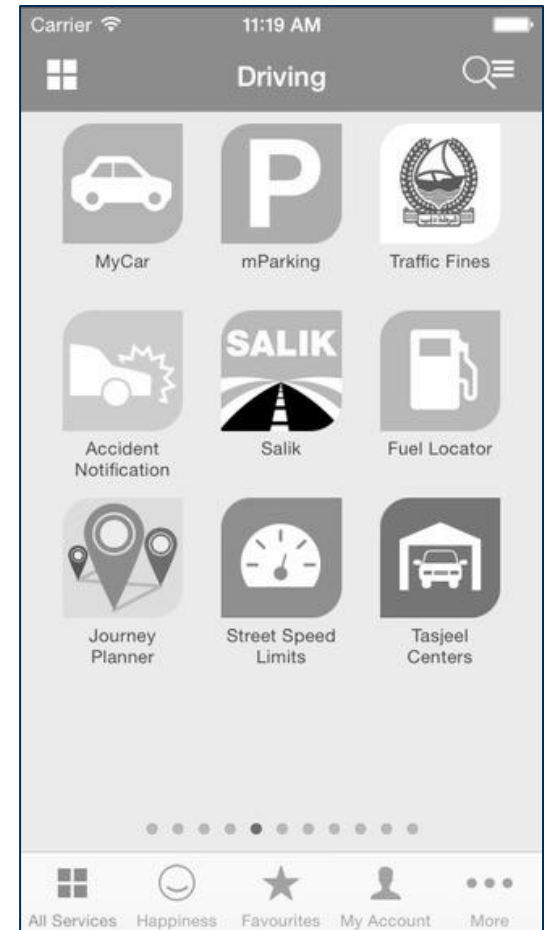

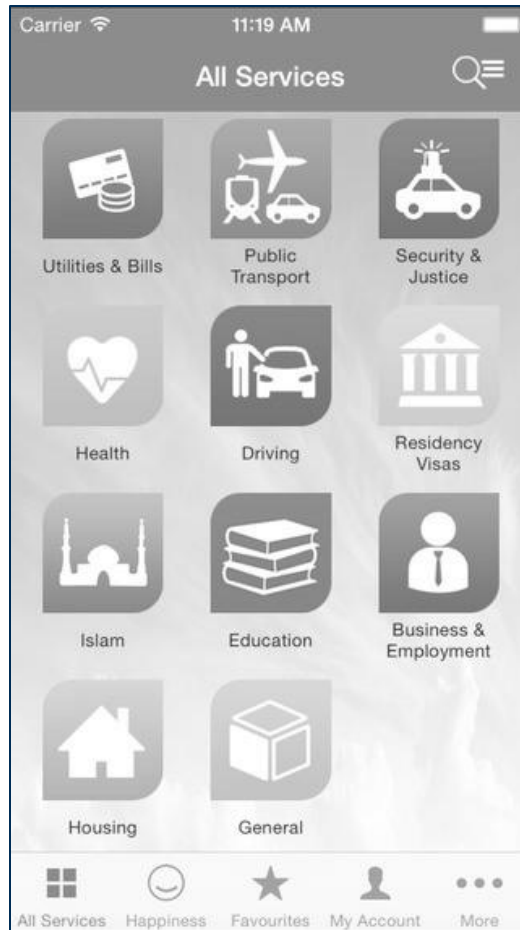

# Happier for less in **Dubai**

DubaiNow  
smartphone app

**\$1 billion savings**

# ...and on building capacity:

think big... but start small

work together... but move fast

emphasise synergies &  
interdependencies

borrow from the past

harvest good ideas

# **FIVE STRATEGIES FOR UNLOCKING THE SMART CITY**

1. Develop the vision & capacity to innovate
2. Aggregate demand
3. Rigorous sustainability metrics
4. Embrace new financial models
5. Urban transformation pilot projects

This is an idea whose  
**time has come**

It is the beginning of  
digital government and  
**it's only going  
to accelerate**

*Megan Smith  
Chief Technology Officer  
White House OSTP*

# The market by the numbers

**\$1.13 trillion** by 2019

- Markets & Market
- 20.5% CAGR (compound annual growth rate)

**\$1.38 trillion** by 2020

- Mordor Intelligence
- 20% CAGR overall, 38% CAGR Asia-Pacific

**\$1.56 trillion** by 2020

- Frost & Sullivan

**\$2.1 trillion** by 2020

- The Climate Group

# The benefits of demand aggregation

Collaborating leads to greater innovation

Scaling leads to inclusion

Reducing duplication of effort

Reducing costs through infrastructure sharing

Increasing economies of scale

Squeezing maximum value from assets

Opportunities for collaborative purchasing

# **FIVE STRATEGIES FOR UNLOCKING THE SMART CITY**

1. Develop the vision & capacity to innovate
2. Aggregate demand
3. Rigorous sustainability metrics
4. Embrace new financial models
5. Urban transformation pilot projects

# Unlock the limitations of one-dimensional metrics

Metrics that  
matter...

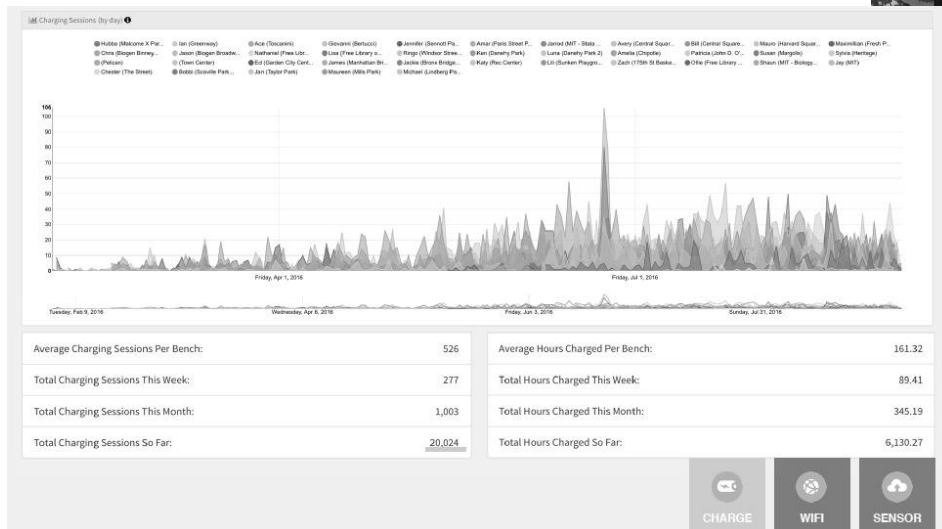

5	Corporate Responsibility
6	Sustainability Awareness
7	Community Participation and Governance
8	Environmental Management
LIVEABILITY	
9	Healthy and Active Living
10	Community Development
11	Sustainable Buildings
12	Culture, Heritage and Identity
13	Walkable Access to Amenities
14	Access to Fresh Food
15	Safe Places
ECONOMIC PROSPERITY	
16	Community Investment
17	Affordability
18	

# Are you 'situationally aware'?

- Collect
  - Crunch
  - Communicate
- Sensors
  - Analytics
  - User Interface

# **FIVE STRATEGIES FOR UNLOCKING THE SMART CITY**

1. Develop the vision & capacity to innovate
2. Aggregate demand
3. Rigorous sustainability metrics
4. **Embrace new financial models**
5. Urban transformation pilot projects

Those of us living in  
cities need to make sure  
they are smart cities.

**Nothing else  
makes sense**

And nothing else is  
such a world-wide

**economic  
opportunity**

*Neelie Kroes  
Vice President  
European Commission*

# Barcelona 2014

56,000 jobs, **\$3.6 billion** in benefits

// 1,500 New Companies

// 56,000 New Jobs

// Mobile Collaboration: \$1.6B

// Telework: \$199M

// Smart Parking: \$67M

// Smart Water: \$58M

// Smart Lighting: \$47M

The light post is merely the backbone structure for more than 12 other urban performance management functions

# Australia's Smart Cities Plan

Smart Cities Plan

Smart Cities Plan

**Smart Investment - Infrastructure  
Financing Unit**

**Smart Policy – City Deals**

**Smart Technology – Smart Cities &  
Suburbs**

# Smart Cities & Suburbs Program

*“...will support local governments to fast-track innovative technology solutions that improve long-standing urban problems.”*

*“...seeks to increase the efficiency and effectiveness of urban service delivery, infrastructure and planning to improve the liveability of cities and their suburbs.”*

# City Deals

1. Based on a partnership model, coordinated government decision making
2. An integrated investment plan, deeply rooted in performance metrics
3. Focused on unlocking economic potential and investment attraction
4. Improved sustainability outcomes

“Australia has an estimated \$800 billion infrastructure deficit...”

Australian Financial Review, 2015

Therein lies the opportunity for the smart cities movement

# **FIVE STRATEGIES FOR UNLOCKING THE SMART CITY**

1. Develop the vision & capacity to innovate
2. Aggregate demand
3. Rigorous sustainability metrics
4. Embrace new financial models
5. **Urban transformation pilot projects**

## SMART CITIES READINESS GUIDE

*The planning manual for building tomorrow's cities today*

Welcome to the Readiness Guide. This document was assembled with input from many of the world's leading smart city practitioners – the members and advisors of the Smart Cities Council. It will help you create a vision for the future of your own city. Equally important, it will help you build an action plan to get to that better future.

The first goal of the Readiness Guide is to give you a “vision” of a smart city, to help you understand how technology will transform the cities of tomorrow.

The second goal is to help you construct your own roadmap to that future. It suggests the goals to which you should aspire, the features and functions you should specify, the best practices that will gain you the maximum benefits for the minimum cost, at reduced risk.

The Readiness Guide is intended for mayors, city managers, city planners and their staffs. It helps cities help themselves by providing objective, vendor-neutral information to make confident, educated choices about the technologies that can transform a city.

Cities around the world are already making tremendous progress in achieving
