CONCLUSION	31

INTRODUCTION

With a rapidly expanding northern corridor, the City of Wanneroo (the City) remains one of the fastest growing local governments in Western Australia with Perth's next major Strategic Metropolitan Centre planned at Yanchep. Yanchep's current population of 9,175 is forecasted to grow with an estimated 45,012 residents predicted to move into the area by 2041.¹

The City of Wanneroo is committed to working collaboratively with others to ensure young people are valued, empowered and supported to reach their full potential and are connected to community. The engagement has provided an opportunity for the City to better understand young people in Yanchep and ensure a vibrant community.

Following on from the 2015 YSpeak!, the City invited community members of all ages, who live, work, study or socialise in Yanchep, to participate in YSpeak! Yanchep, aimed at determining the needs and interests of young people in Yanchep and surrounding areas.

YSpeak! Yanchep engaged a total of 538 participants, consisting of both community members of all ages and stakeholders.

The following report provides an analysis of the Yanchep and Two Rocks community and the YSpeak! Yanchep youth engagement.

YSpeak! Yanchep provided young people and community with an opportunity to inform the City's future facility and service planning.

City of Wanneroo Vision for Young People
Young people are valued, empowered and supported to reach their full potential and connected to community to support a quality lifestyle.
(City of Wanneroo Youth Plan 2018-2020)

DEMOGRAPHICS OF YANCHEP

Located in the northern corridor of the City, Yanchep occupies approximately 221.4 square kilometres and is located approximately 56 kilometres north of the Perth CBD. Originally a small fisherman’s town, Yanchep has grown and developed with a population consisting of approximately 9,175, an increase of over 6,500 residents in the last twenty yearsⁱⁱ and 4,877 in the last five years aloneⁱⁱⁱ.

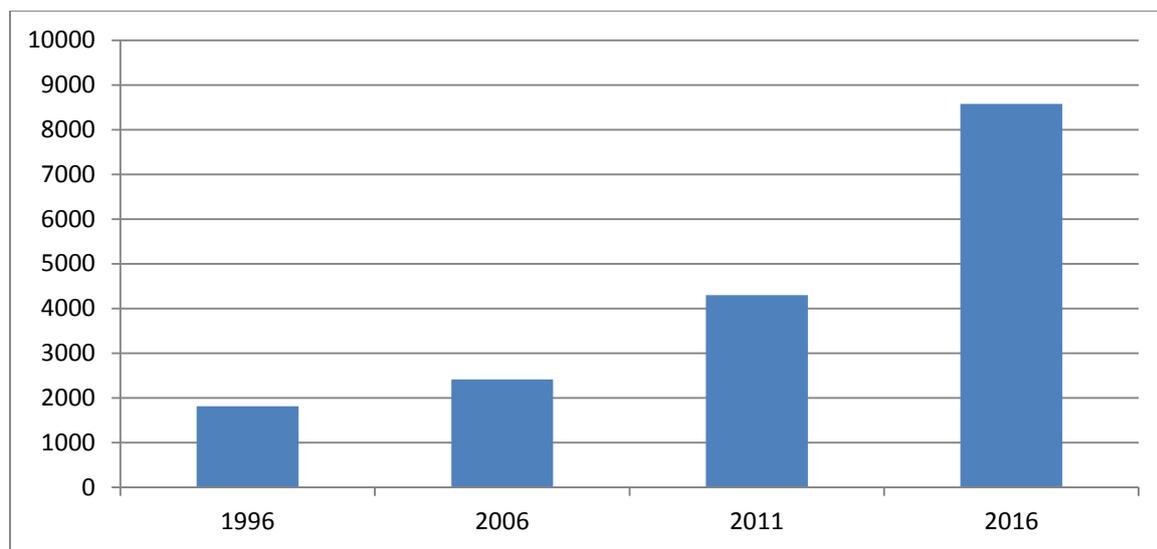

Figure 1: Enumerated population of Yanchep 1996-2016

Youth Population

With a large increase in population and an increase in young families moving into the area, Yanchep has seen a significant increase in young people over the previous 7 years. Whilst population statistics continue to rise, access to alternative education and higher education services within Yanchep area are limited. Statistics show that Yanchep has smaller percentage of young people attending a secondary school and learning at a tertiary level, compared with that of the City’s, state and national statistics^{iv}.

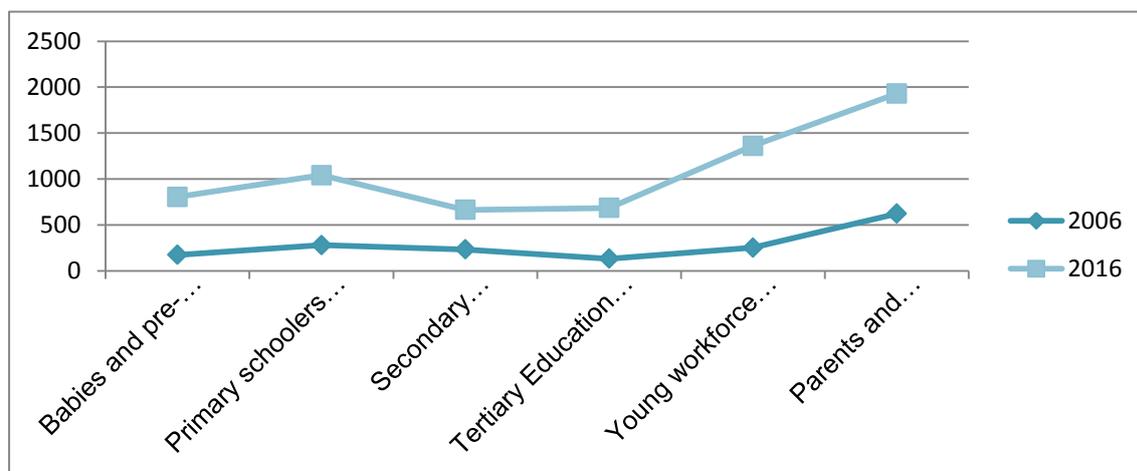

Figure 2: Service age groups from 2006-2016

Employment and Economy

Yanchep's location from the Perth CBD and lack of public transport system has a significant effect on access to employment and training. Unemployed persons represent a total of 6.4% of Yanchep's population. Those looking for full time work in Yanchep represent 5.7% with 3.6% looking for part time employment, both above the average City percentage. In 2016, 18.2% of the City's labour force in Yanchep, aged 15 to 24 years, was classed as unemployed, compared to 17.4% in the City and 14.9% nationally.^v

Yanchep Employment Status	Number	Percentage %
Employed	3,720	90.8%
• Employed full-time	2,325	56.7%
• Employed part-time	1,320	32.2%
• Hours not stated	74	1.8%
Unemployed	377	9.2%
• Looking for full-time	231	5.7%
• Looking for part-time	146	3.6%
Total Labour Force	4,097	100%

Figure 3: Yanchep employment status, 2016

Youth Unemployment Rate (aged 15-24 years)	Number	Total labour force aged 15 to	Percentage %
Yanchep	113	620	18.2%
City of Wanneroo	2,981	17,160	17.4%
Greater Perth	26,115	160,821	16.2%
Western Australia	30,467	194,170	15.7%
Australia	268,915	1,800,876	14.9%

Figure 4: Youth unemployment rate (persons aged 15-24), 2016

In 2016, Yanchep was the City's second highest suburb statistically for young people disengaged in both education and employment. Statistics demonstrate disengaged young people in 2016 represented 16.7% of the youth population in Yanchep compared to that's of Western Australia's 10.5% average^{vi}.

Suburb	Number	Total persons aged 15 to 24 years	Percentage
Alkimos	87	863	10.1%
Butler	234	1984	11.8%
Clarkson	276	1962	14.1%

City of Wanneroo	2869	25,946	11.1%
Western Australia	32,465	309,984	10.5%
Australia	287,962	2,988,372	9.6%

Figure 5: Disengaged in education and employment (aged 15-24 years not employed or in education), 2016

Subpopulations and Ancestry

The total number of Yanchep residents can be seen to be made of majority female (50.6%), with males estimated to represent 49.1% of Yanchep population. Of these, 2.1% identified as Aboriginal and Torres Strait Islander background. Statistics demonstrate the ancestry of Yanchep residents are primarily English ancestry (48.3%), followed closely by residents identifying as Australian ancestry (30.1%), with other residents of Scottish (9.0%) and Irish (8.8%) ancestry. ^{vii}

Subpopulation Categories	Number	Percentage	City of Wanneroo Percentage
Males	4,367	49.1%	49.4%
Females	4,506	50.6%	50.6%
Aboriginal and Torres Strait Islander	187	2.1%	1.4%
Australian citizens	6,530	73.4%	78.2%
Eligible voters	4,573	51.4%	55.5%
Population over 15	6,707	75.4%	77.0%

YSPEAK! YANCHEP: DEVELOPING THE CONSULTATION

YSpeak! Yanchep commenced in July 2017 with the introduction of a community survey. The survey was administered to 430 community members with results demonstrating the need to further consult with community.

The information gathered from the survey was outlined in a YSpeak! Yanchep Survey Report 2017 with presenting themes. These themes were the basis for further engagement.

Engagement Timeline and Methodology

ENGAGEMENT	TOOLS	TOTAL PARTICIPANTS
YSpeak! Yanchep Survey	Promotion of hard copy and online surveys from Yanchep District High School	163
	Promotion of hard copy and online surveys within the Yanchep Community Centre	Undetermined
	Promotion of online surveys at the City of Wanneroo Alkimos Pop Up Library.	2
	Face-to-face promotion at local shops and businesses across Yanchep, Two Rocks and Alkimos, including areas frequented by young people.	Undetermined
	The creation of YSpeak! Yanchep promotional video, shared to local Yanchep Facebook pages.	Undetermined
	Delivery of 1x stall promoting the completion of hard copy's at Yanchep Monthly Markets.	6
	Email notification and promotion to local schools within the Yanchep, Two Rocks and Alkimos suburbs.	14
	Email notification and promotion to external stakeholders	15
	Face to Face promotion and delivery of YSpeak! Yanchep promotional PowerPoint at a northern corridor network group	Undetermined
	A summary delivered to the City's eNewsletter subscribers within the Smart clubs eNewsletter and Youth eNewsletter	4
	Promotion on City of Wanneroo Internal website and communications.	47
	Delivery to City of Wanneroo staff internal networks.	2
	Promotion of the survey over Youth Jam Radio, delivered by the City of Wanneroo Mayor Tracey Roberts.	Undetermined
	Promotion social media pages.	177
1x front page article in the North Coast Times Community News paper.	Undetermined	
YSpeak! Yanchep Internal Reference Group	2x workshops to inform the survey development and provided guidance on marketing and promotion.	12
Youth Focus Groups	1x workshop delivering on 1x theme of the survey held at Yanchep Community Centre and advertised through the City's Facebook page to the community	3
	2x workshop delivering on 1x theme of the survey held at Yanchep Community Centre as part of the Yanchep youth program	18
School Engagement Sessions	2x school engagement sessions at Yanchep High School as part of recess and lunch, delivering on 1x theme of the survey and communication methods.	50
Vox Consultation	Pop 1x Vox Pop consultation at Yanchep and Two Rocks Library utilising peer to peer interviewing and video recording. Young people were provided opportunity to send through an expression of interest to take part in workshop.	7

Internal and External Stakeholder Workshops	1x workshop held at Yanchep Open Space, informing internal and external stakeholders of the results from the engagement and possible opportunities and feedback from the themes from the survey.	12
Individualised Target Workshops	4x individualised target workshops with external and internal stakeholders providing input into the actions from the engagement.	6
TOTAL		538

Figure 8: YSpeak! Yanchep engagement tools and participant numbers

Engagement Limitations

Overall, YSpeak! Yanchep engaged with 538 participants, representing over 5% of the overall population in Yanchep and providing a 95% confidence level in the results obtained. To ensure statistical reliability, a variety of diverse participation methods were utilised in the delivery of the engagement, ensuring awareness and inclusiveness to all community. Despite the success in gathering feedback from a large number of community members, engagement gaps exist in young people aged 18 to 25 years. Despite efforts to engage further via focus groups, this age group has been under represented throughout the engagement.

The initial survey received majority of the responses for the engagement, a smaller cohort of participants undertook the workshops and Vox Pop consultation. Much of the initial survey was delivered through face-to-face communication with community, Yanchep District High School and through local Facebook community group pages. Post survey workshops were primarily advertised via the City's Facebook page and saw reduced engagement.

The information gathered from the survey has informed the future planning of services as per the City's Youth Plan 2018 – 2020 and has strongly aligned with the 2015 YSpeak!

DATA ANALYSIS

YSpeak! Yanchep Survey

With 430 responses, YSpeak! Yanchep survey received majority of participation compared to that of the other engagement methods. Overall the survey represents 79.9% of the overall participation of YSpeak! Yanchep.

Existing Facilities and Programs

Participants were asked two questions regarding the City's current programs and services. The questions aligned with what young people in Yanchep are aware of in the local community and what they would use in the future, indicating young people's interests. The questions were:

- Are you aware of the following the City of Wanneroo provides? I have heard about the service.
- Are you aware of the following the City of Wanneroo provides? I use/I am going to use the service.

The 426 responses demonstrated knowledge of local community facilities, including Two Rocks Skate Park and Library, Clarkson Skate Park and Library and Yanchep Community Centre. Overall respondents indicated a lack of knowledge surrounding majority of services that the City provides. The least heard about services included; Youth Outreach Services, Youth Support Services (case management) and the City's Volunteering Services. The information obtained is represented in the graph below.

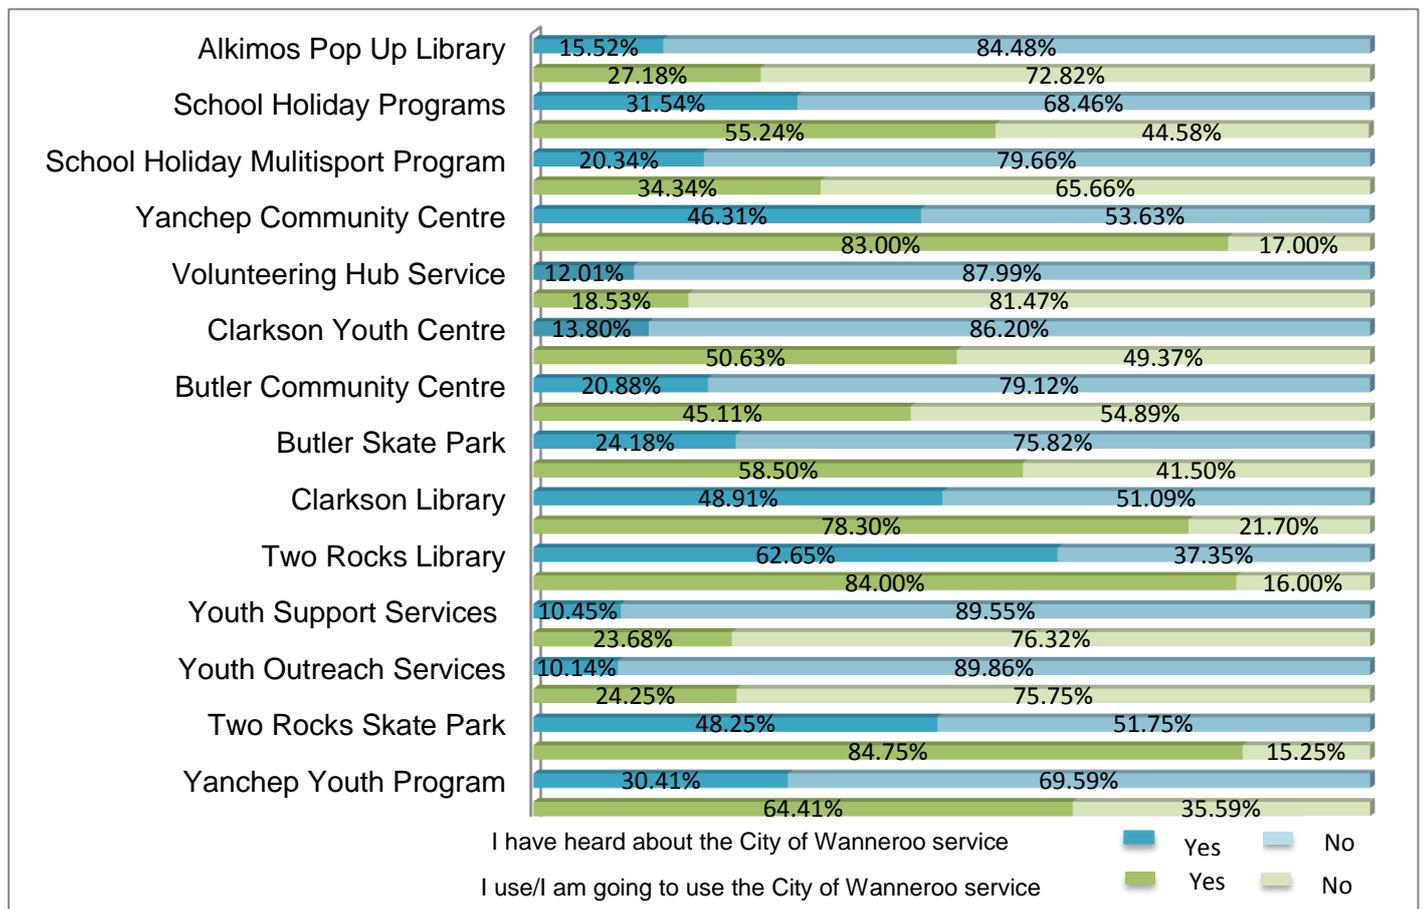

Figure 9: Respondents responses to I have heard about the City of Wanneroo service and I use/I am going to use the City of Wanneroo service.

In question 7, participants were asked the following:

- What factors would stop you using these services in question 6?

Of the 412 responses, the data demonstrated location (44.90%) was the most common factor amongst all age groups, followed by cost (35.92%) and not aware of the services (35.92%). In line with Yanchep’s location, transport (31.07%) was a significant high factor amongst respondents, with no-one to go with (27.67%), safety (26.94%), not available in your area (24.51%) and age (21.12%) all being concerning factors. The factors of least concern were gender (3.64%), health and disability (4.85%) and confidence (17.48%). A significant number of participants (13.83%) reported none of the above was issues.

The participant’s responses have been further broken down into age categories to understand the impact of age on access to services.

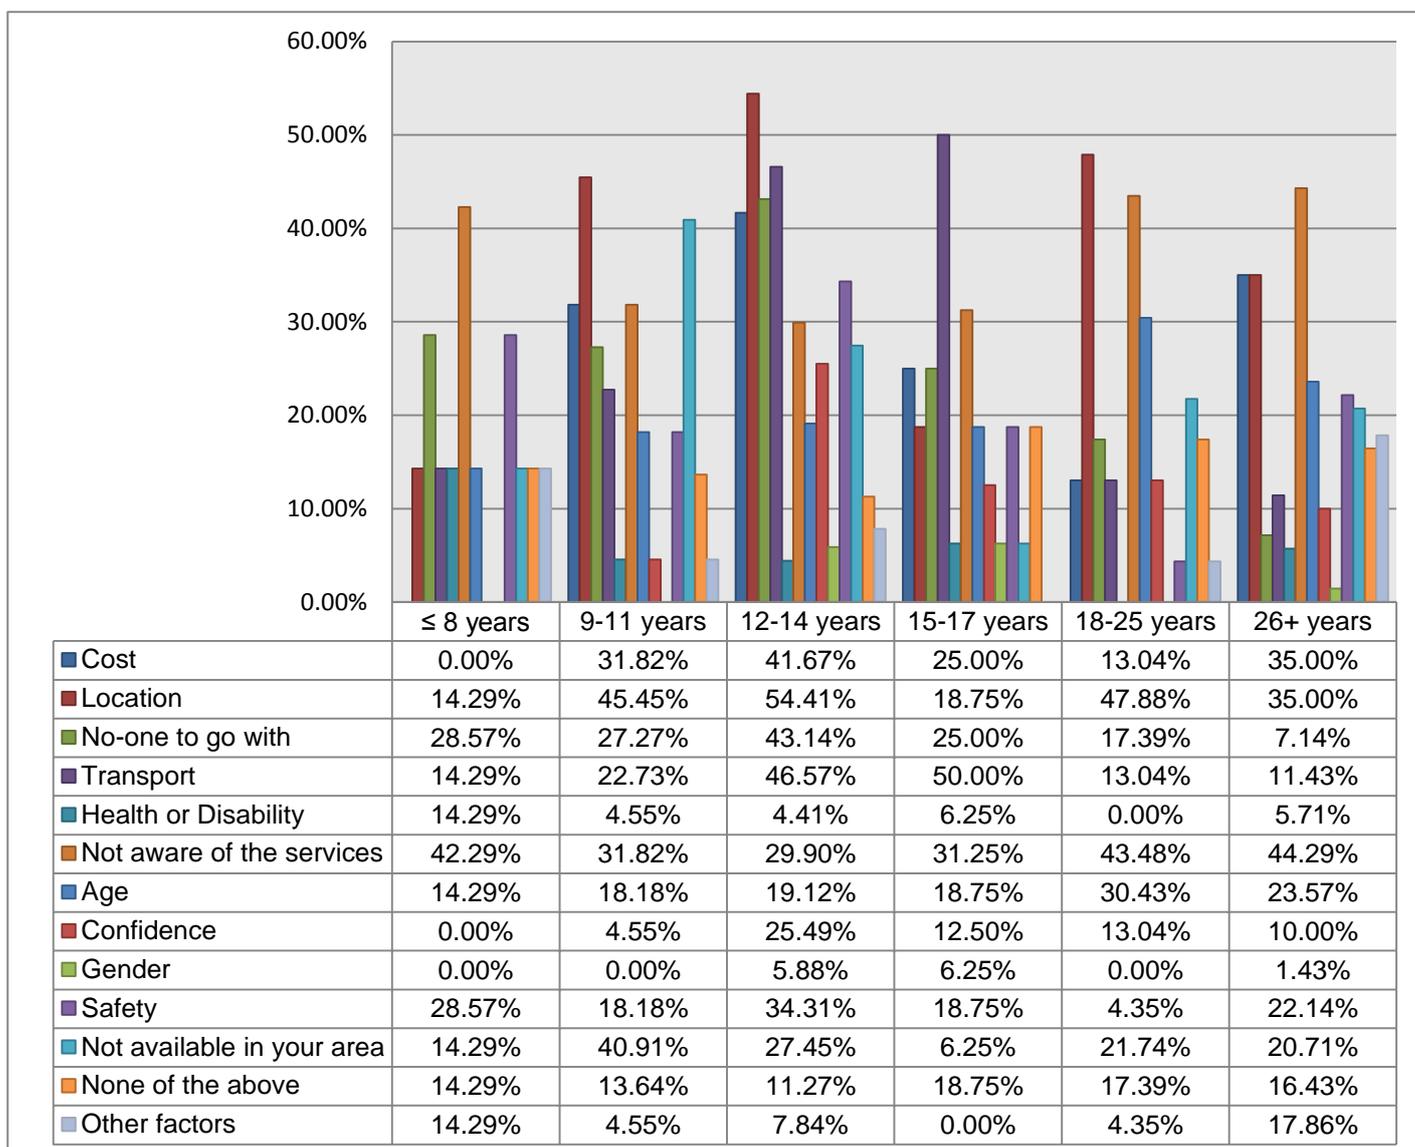

Figure 10: Key factors preventing access to services

Each age range indicated similarities. The under 8 category highlighted no-one to go with and safety as the key areas. All other ages reported the top factors as location, transport, cost and not aware of the service.

Programs and Services

Young people were provided an opportunity to choose what youth activities and/or events they would like to see in Yanchep. Participants were asked the following question:

- Number the top 5 youth activities and/or events you would like to see in Yanchep.

Participants were provided the following options;

- Outdoor games (e.g. sports, beach)
- Games activities (e.g. chess, ping pong)
- Arts and culture (e.g. theatre, art, dancing)
- Youth groups (e.g. youth centre drop in, Cadets, Scouts)
- Environmental activities (e.g. bushwalks, gardening)
- Music activities (e.g. competitions, classes, concerts)
- Skill based learning (e.g. leadership, cooking, trade certificates)
- Educational activities (e.g. homework hubs)
- Technology activities (e.g. Coding, robotics, photography)
- Recreational activities (e.g. movies, disco)
- Volunteering opportunities (e.g. Riding for the Disabled, Yanchep National Park)
- Fitness activities (e.g. gym, Parkour, obstacle course)
- Events (e.g. fete, festival)
- Action sports (e.g. skateboarding, BMX, scoot).

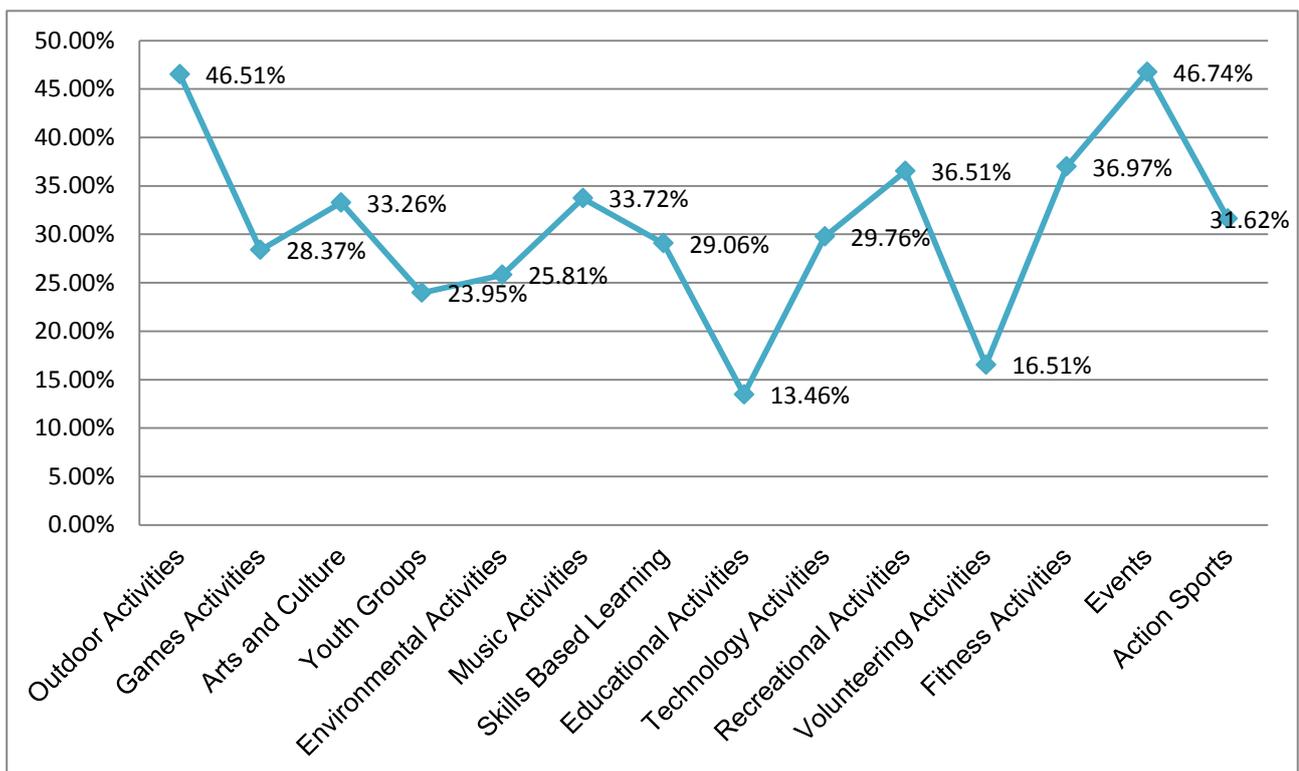

Figure 11: Activities and/or events respondents would most like to see in Yanchep.

The question gave participants an opportunity to rank in order of preference, the youth activities and/or events that they would most like to see in Yanchep. Of the 405 responses received, individuals also provided personalised responses as displayed in figure 12. Those that the community prioritised were:

1. Events
2. Outdoor activities
3. Fitness Activities
4. Recreational Activities
5. Music Activities

The structure of the survey provided opportunity for participants to input activity ideas, those that provided a response indicated the following:

<i>Categories</i>	<i>Respondents feedback on activities needed in community.</i>
<i>Outdoor Activities</i>	Sports (soccer, basketball, tennis, running clubs, organised community sports, sports centre, squash, volleyball), outdoor gym (boxing, weights), beach activities (beach volleyball, beach netball, increase parking at beach), camping, Yanchep National Park activities, horse riding, water activities (snorkelling, kayaking, platoon on water, snorkelling, paddle boarding, pedal boats in lake), flying fox, new ovals and lagoon improvements and better park layouts, fishing.
<i>Fitness Activities</i>	Obstacle course, yoga, dance, fitness classes, bush walking group, Pilates, gym, Parkour, workout classes, floating obstacle course at lagoon, boxing, Ninja Warrior Course, Recreational centre with multiple facilities for team sports, fitness equipment in parks, free park fitness, Colour Run, Mud Rush, biking, Judo, yoga and mindfulness, youth boot camps, hikes and running activities, muay thai.
<i>Games Activities</i>	Chess, bowling, table tennis competition, ping pong, billiards, giant board games outside, gaming club, Timezone. Gaming lounge upgrade at Two Rocks Library, Xbox workshops, treasure hunts, gaming hubs, handball, pool table at a centre.
<i>Arts and Culture</i>	Theatre, art classes, film making, singing, dancing (hip hop), theatre, jewellery making, band, drama class, music class, social dance venue, dance, hip hop/rap performance.
<i>Youth Groups</i>	Scouts, Cadets, youth centre drop in, disco, girls circle, guides, Christian youth activities, Army Cadets, Police Rangers, youth groups for autism, Surf Lifesaving Club, confidence workshops, resilience programs for girls, youth social clubs.
<i>Environmental activities</i>	Volunteer gardening, bush walks, community garden, sand dune walks, hiking, tree planting, clean up the community, historical walks through national parks and local icons, walking clubs, rubbish clean up, nature playground,
<i>Music Activities</i>	Concert, hip hop classes from WA artists (Bitter Belief, Cortext), music classes (instruments, drums, and guitar), dance classes, talent quests, competitions, DJ classes.
<i>Skill based learning</i>	Cooking, trade certificate, survival lessons, leadership, University, educational hubs on hot topics, barista certificate, TAFE courses, working on a car.

<i>Educational Activities</i>	Homework hubs, tutors, career help, SciTech roadshow, craft studios, metalwork, woodwork, , practical Science Technology Education Math activities, extension classes, youth support and advice, wild life educational activities.
<i>Technological Activities</i>	Photography, robotics, editing, computer class, computer programming, coding club.
<i>Recreational Activities</i>	Movies/movie night, swimming, bowling, ice skating, club, disco, excursions, dances, gaming centre, markets, bounce trampolining, rock climbing, food options, theme park, aquatic centre, indoor sporting arena.
<i>Volunteering Activities</i>	Riding for the disabled, Bethanie Friendship Group, Yanchep National Park, coastal Clean-ups, working with people with disabilities, building things for the community, police volunteers, youth volunteer group, volunteering in local business/retirement homes.
<i>Events</i>	Festival, Hip hop/rap show, carnival, youth and career festival, fete (local produce), reggae festival, music festival, movie theatre, agricultural show, live music fest, car event, outdoor event.
<i>Action sports</i>	Skate/BMX park, BMX, paintball, archery, mountain bike riding track, scooters, and motor sports BMX/Motorbike club.

Figure 12: Other activities/events respondents would like to see in Yanchep.

Youth Facilities

Participants were asked what facilities they would like to see in Yanchep. The list of facilities included; a recreational facility, a youth centre, a BMX/skate/scooter facility, a community centre, a training facility, a music facility, an environmental facility and a museum/art facility. The questions the respondents were asked were:

- Number 1-8, how important are the following facilities to young people (1=most important, 8=least important)
- Are there any other facilities, not outlined above, that you would like to see in Yanchep?

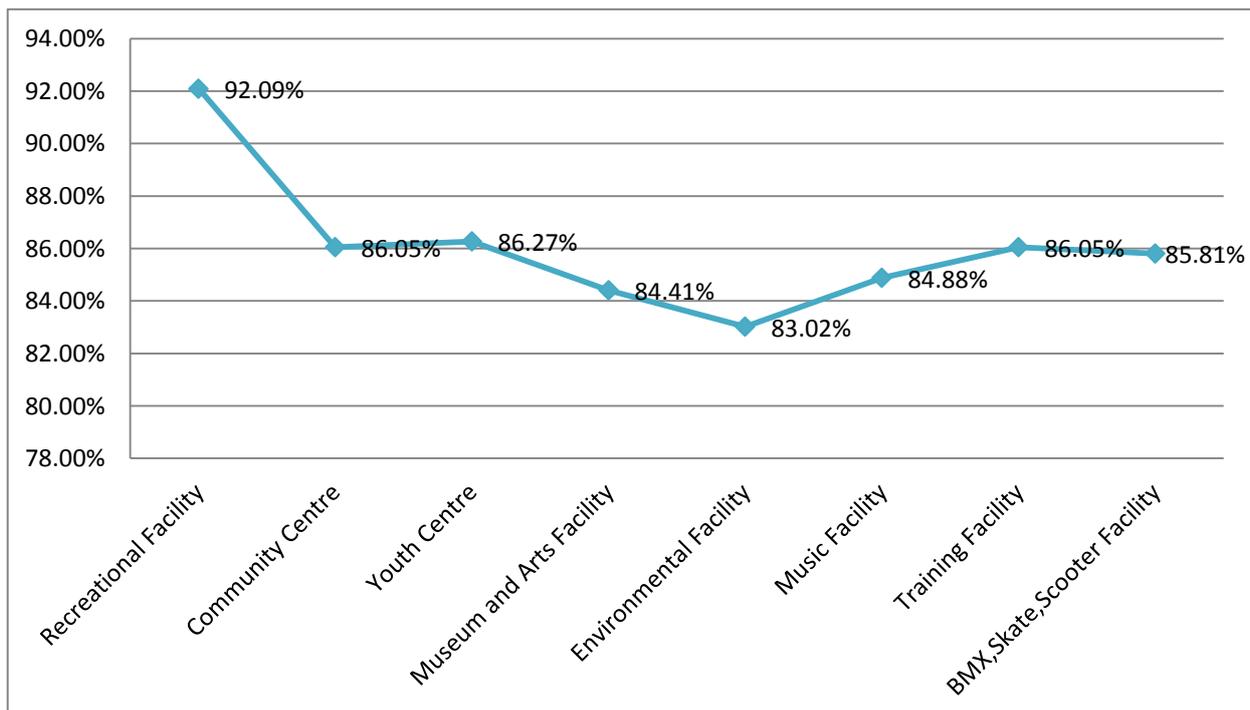

Figure 13: Most important facilities to young people in Yanchep.

Of the 406 that responded, 92.02% of respondents recommended recreation facilities, followed by a youth centre (86.27%), a training facility (86.05%), community centre (86.05%) and a BMX/skate/scooter facility (85.81%).

The survey provided an opportunity for community members to provide feedback on facilities which were not listed. Participants provided the following responses:

<i>Facility Type</i>	<i>Respondents feedback on facilities needed in community.</i>
<i>Sporting and Recreational Facilities</i>	Rock climbing, sporting facility, ice skating and roller skating rink, swimming pool, indoor play centre, gymnasium, leisure centre, trampoline centre, dance studio, indoor sports centre, equestrian riding centre , bowling centre, Paintball
<i>Youth Designated Space</i>	PCYC (boxing, gym, badminton), Youth Hub, Youth Centre, LGBT friendly space, Youth Crisis Accommodation, Autism friendly space.
<i>Water Play Facilities</i>	Theme park, water park, Adventure World.
<i>Environmental Facilities</i>	Native animal rescue site, animal training centre, zoo, dog park.
<i>Community Facility</i>	Café, Community Hub, Library
<i>Outdoor Facilities</i>	Surf Club, playgrounds, Court, Mobile Library, Ovals, Marina, benches, sheltered areas.
<i>Health and Wellbeing Facilities</i>	Hospital, bike paths and walking tracks/paths (walking path along Yanchep Beach Rd to National Park and Yanchep to Two Rocks)
<i>Transportation Facilities</i>	Train station, freeway,
<i>Educational Facilities</i>	Higher education facility, Art School.
<i>Shopping Facilities</i>	Shopping centre, gaming shops and activities, cinema and theatre, drive-through movies, comics and book shop, food outlets, post office, food stands, second hand shops
<i>Entertainment</i>	Adult entertainment, pub/tavern, licenced restaurants, clubs.
<i>Action Sport Facilities</i>	Skate park, motocross track, indoor skate park, Parkour, off road tracks, dog sledding track.
<i>Employment Facilities</i>	Employment opportunities
<i>Gaming Facilities</i>	Gaming Centre and activities
<i>Tourism Activities and Facilities</i>	Markets and swap meet areas, tourism facilities
<i>Arts and Culture Facility</i>	Art studios, youth art hub
<i>Volunteering Facilities</i>	Community kitchen

Figure 14: Other important facilities to young people in Yanchep.

Youth Issues

Participants were asked to highlight the issues that concern young people and rank them in order of priority. Participants were given a list of 18 issues facing young people today and were asked to:

- *Number the top 10 issues for young people in Yanchep.*

The relevant issues included; housing affordability and availability, unemployment, alcohol and binge drinking, antisocial behaviour, mental health, drug use, sexual health, teen pregnancy, suicide and self-harm, finances, inequality and discrimination, bullying, personal

safety, criminal activity, homelessness and couch surfing, family violence, online safety and cyber safety, health and hygiene. The 380 responses from participants demonstrated concern in bullying (86.32%) and drug use (86.32%), followed by alcohol and binge drinking (78.42%), criminal activity (75.25%), mental health (72.11%) and antisocial behaviour (64.21%).

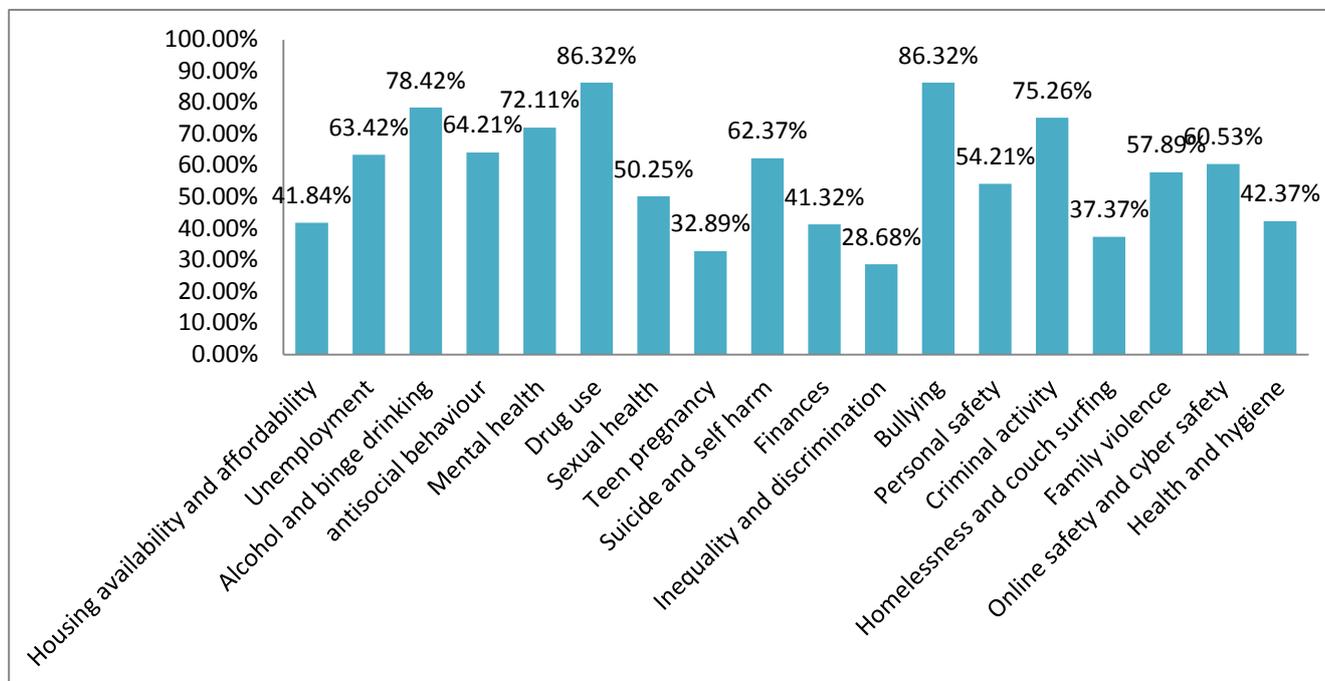

Figure 15: Most concerning issues for young people in Yanchep

Upon ranking the top issues, participants were provided an opportunity to provide comment on how the community could address the issues.

- How would you suggest that the community address these concerns as identified in Question 11?

Categories	Respondent's feedback on how to address youth issues present in community.
Education	Police workshop, free information sessions for young people, educational talks at events and schools, mental health programs in primary schools, parenting workshops, youth workshops, community workshops, public speech, community awareness, 12 week trade course whilst undertaking educational programs.
Crime Prevention	Police services, police presence and patrol, surveillance cameras, increase rules, laws and harsher penalties, neighbourhood watch, Police Station.
Youth Program and Facility	Youth group, youth activities, PCYC, outreach programs, LGBTQI support, youth centre, youth mentors, youth facility for young people at risk, utilise the new High School to adopt community programs, youth safe place, sports clubs, music and art clubs, Guides and Scouts, life skill programs.
Help Seeking Programs	Self-help groups, support groups, counselling, access to psychologist, animal therapy.
Access to Information	Internet, media, books, community hub.

<i>Access to Employment</i>	Increase job opportunities, youth employment opportunities.
<i>Events</i>	Night time events, star music festival, community events.
<i>Training Facilities</i>	Training facility.
<i>Youth Involvement</i>	Youth involvement in planning, feedback from young people.
<i>Health and Wellbeing Information</i>	Yoga, mindfulness programs, personal health and responsibility, free access to doctors and centres.
<i>Community programs</i>	Community meetings.
<i>Social Facilities</i>	Shopping centre, movies, tavern, swimming pool, sports centre, Community Centre (special needs programs), and gym.
<i>Other</i>	Not aware of issues

Figure 16: Respondents comments on how to address issues in Yanchep

Final Comments

In finalising the survey, participants were provided an opportunity to provide comments or questions relevant to the survey.

- Do you have any other comments or questions?

A large number of participant feedback was received, with 139 respondents providing input. The information gathered has been sorted according to the respondent's age and is outlined in the table below in age categories.

<i>Age bracket</i>	<i>Feedback from respondents</i>
<i>≤8</i>	<ul style="list-style-type: none"> • No further comments provided
<i>9-11 years</i>	<ul style="list-style-type: none"> • Request to stay at the Yanchep National Park. • An indoor swimming pool. • Stop drugs • Stop drinking/driving. Increase police • Dog poo bags and fines issued to those not cleaning dog mess.
<i>12-14 years</i>	<ul style="list-style-type: none"> • A church and some ways for youth to connect • Updated on technology events • A skate park • Lockers at new school • Various clubs, lockers and services at new school • A lolly shop and opportunity for a weekly program for young people to make lollies • A skate park • A dancing program • The youth centre is a fun place to go hang out • A Yanchep horse riding school and a Yanchep hockey club • 5-a side soccer pitch • Great place to go hang out after school • Fix the two rocks boat ramp and marina • I'm very scared of high schools • Animals and pools. Outdoor activities and fun stuff and art fashion design.
<i>15-17 years</i>	<ul style="list-style-type: none"> • No further comments provided
<i>18-25 years</i>	<ul style="list-style-type: none"> • More community halls or centres in Eglinton. Barrier to starting groups is transport • A walkway from Yanchep to Two Rocks along the coast. More people, more jobs

	<ul style="list-style-type: none"> • Footpaths • More facilities
26+ years	<ul style="list-style-type: none"> • More transport • Please be aware that we have no activities for youth over 13 years of age. PCYC. • A PCYC for the future of our youth. • More availability of days to attend the nearer to nature program at Yanchep National Park during the school holidays. Free nights of accommodation at the Yanchep National Park campground for local residents. Scouts or guides group. • Noticed an increase in crime, drug use and anti-social behaviour. Monitoring at skate parks etc. to reduce risk of adults giving young people drugs. • Opportunity to our youth in Yanchep, address youth boredom and increase controls. More employment and volunteering opportunities. • Currently new urban areas are set up for younger children and new parents. Integration of youth into the community should be a multi-pronged approach. Youth informed and self-growth and betterment. Teach the children how to make money through enterprise programs. Young people involvement in promoting day time music festivals or DJ comps. Start music programmes street art programmes. Community service programmes through the high school, to benefit the community, assisting older people with computers or technology. Even just providing lonely older people with a visiting service just to talk. Set up coffee days with the focus on Youth at the different coffee places. • The kids of Yanchep are bored. Nowhere to hang out with friends • Community education on perception of young people • Family focused entertainment program/events • More jobs, a post office, shops that sell clothing and shoes. More bus stops and a bigger range or routes for the bus. Bigger parks to get bathrooms. Youth at parks closer to the beach such as a campground available locally. Yanchep Beach Primary could really do with a crossing. • A Post Office and better shopping Centre. • More activities and opportunities for youth and teenagers • Make Yanchep a destination spot again. • More choices for young people to develop support and long term friendships together. • Lifesaver flags at Two Rocks - Leeman's landing. Complete lifesaving club and new oval at Yanchep • A BMX club /large skate park with facilities would be great • This survey re: youth!! Activities and services for seniors at Yanchep Community Centre acknowledged by the WCC and included in their calendar of overflow promoting and encouraging seniors to keep fit and promote healthy lifestyles. Could utilise vacant land next to Yanchep Community Centre, level it, and hold an intergenerational mini football-entertainment food demos / stalls farm animals, games. • The focus should be on creating jobs. Employment secures people's current situation and future outlook and eliminates/suppresses a lot of antisocial outcomes. Support business and commercial development which provide employment opportunities and develop infrastructure (quality roads, utility services etc.). • Proper bushwalking trails (not the National Park which is no use outside working hours and doesn't allow dogs) and trails and parks where people

	<p>can take their dogs. Bike tracks and larger parks with more useable space.</p> <ul style="list-style-type: none"> • School holiday fun events. • Make Yanchep a place where youth are happy and thriving then Yanchep will be happy and thriving. Schools are so full, we have a lot of youth that are traveling to schools out of the area and we need things for kids to do that parents don't need to drive 20+ mins. • Adequate facilities, pool, movies, indoor sport and recreation facilities. Attract young people from Butler to Mindarie area • A new facility is needed in Yanchep for youth only. This needs to be a place which youth are attracted to, feel safe to be themselves in and where they know they can get the support they need. • The building of a dedicated youth centre at Yanchep will require long-term planning and funding. In the meantime, perhaps a pop-up youth centre space next to the Community Garden might help connect youth with other members of the community in Yanchep. Having youth programs at Yanchep Community Centre does have an isolating potential. If youth programs could take young people over to locations where more people are coming and going, then young people might feel more connected to their greater community. By having youth activities next to the community garden for instance, would increase their sense of visibility also. This visibility would potentially reduce the temptation to vandalise any facilities or engage in anti-social behaviour, as the proximity to the busy public space would create a disincentive. • More programs for girls involving more traditional girl sports/activities (i.e. lower physical impact/ rough contact). Crafting, Photography, Drama, Debating, Hiking, Choir etc. InterAct/RotorAct (Rotary programs), Librarianship, Ranger etc. • Most things suggested in this survey would bring a welcome change. • A new oval in Yanchep for sporting groups to use. A skate park in Yanchep • A skate park. Many are too young to catch a bus to go to two rocks or Clarkson skate parks and parents aren't always available to drive them. This means kids are skating/scooting on the streets/around shops which is more dangerous. • access is needed if the facilities aren't available here and better street/park lighting a leisure centre would be fantastic for the community as it could offer so many options • This area is growing much faster than you are providing for. It has changed drastically since we moved here 6 years ago certainly need more things for kids to do that will keep them occupied & out of trouble • Young people to promote activities and be more involved in marketing with prizes
--	--

Figure 17: Additional comments of respondents

KEY THEMES AND FURTHER ENGAGEMENT

An analysis of the survey results presented a number of key messages. These messages have been represented through the following themes;

1. Activation, Access and Services
2. Youth Designated Space and Activities
3. Participation, Leadership and Celebration
4. Health, Safety and Wellbeing

Follow up engagement with community sought to further inform and develop outcomes to these themes. An analysis of the community's feedback is represented below.

Theme 1: Activation, Access and Services

Yanchep's distinct features, wildlife, historic buildings and natural beauty have made Yanchep a tourist spot for many years. With housing development and growth within the northern corridor, community has expressed a desire for an increase in services and activities that highlight the natural beauty of Yanchep and activates the area for both the existing community and those visiting. The most sought activities included;

- Events
- Outdoor Activities
- Fitness Activities
- Recreational Activities
- Music Activities

Events and activities which celebrate the community's history and future and are inclusive, cheap and family orientated are preferred in community. The community prioritised support for improvements in infrastructure, including pathways, parks, street lighting and public transportation. Community members noted limited transport links within the area and communicated a desire to see an increase in activities and services within Yanchep in order to improve access.

Two youth focus workshops asked young people to create a perfect project that celebrated Yanchep and addressed an issue prevalent to young people. Young people were encouraged to consider transportation and existing facilities that showcase. The responses are presented through the table below;

Issue	Activities	Age and Cost	Transportation and Location
Paintball Event			
Bullying, antisocial behaviours and mental health	Activities run over three days of the term or two weeks over the school holidays. The event to include food trucks, little rides for young people, a big screen showing the event from a drone above or a cable cam, team death match, last man standing,	Paid event, kids under 12 free	St Andrews Park.

	free for all and capture the flag activities. Young people will need to enter a team and accumulate points over the course of two weeks. Event to include prizes, armour, gun upgrades and points.		
Music Festival			
Equality and alcohol and drug free messages	Festival including cultural bands, food (food trucks and stalls), shop stalls, paintings, and antiques. School aged young people will audition to perform at the festival on 1 of 3 stages (including a dancing stage and a singing stage).	From 8 years, family friendly	Yanchep Open Space
Family Carnival Day			
Bullying and drug and alcohol messaging	An event to include a rollercoaster, a haunted house/clown house, a Ferris wheel, slides and swings and other carnival rides and games. It will include a nighttime concert, include free Wi-Fi, skate ramps, beach pool, show bags and a "family chill zone"	\$20 entry, \$50 family pass, additional cost for the concert	Oldham Park
Gaming Carnival			
	An event to include large marquees, food stands, outdoor toilets, different games for different skill levels and a large scoreboard run over three days.		Spinifex Park
Games Convention			
Drug and alcohol free messaging	The convention will include cosplay, game reviewers/famous YouTubers, new games, game developers that will reveal new consoles.	13+	Yanchep High School Gymnasium. Participants will be required to walk, drive or bus to the event.
Comic Book Convention			
Mental health, unemployment, antisocial behaviours and drug and alcohol free messaging.	A convention to be an event run every four months, either inside or outside, showcasing Yanchep as popular comic book convention location. Include merchandise stores, custom made items, cosplay, activities, paintball/laser tag, and famous actors available for signatures and photos. Include a store in Yanchep that sells comic con		

	related items that can only be bought in Yanchep.		
Retro Rewind Event			
Drug and alcohol free messaging	Events to include drug and alcohol counsellors, healthy food stalls, scavenger hunt, adventurous games and a singer/artist that young people will know.	13-25 years, FREE (tickets include bus pass and a map)	Online booking for free bus as part of ticket
Environmental Event			
	Events to include booths where people can receive information about how to treat the environment with respect and with free plants that they will learn how to care for, linking in with their personal mental health. Showcase various activities such as music, reading, board games and sport. Food and prizes to be included and security guards on site.	All ages with a focus on families with children 6 – 14 years.	Public transport
Yanchep Youth Program			
Building personal skills and resilience	Program to provide opportunity to build skills and help others to face it; young people will undertake a play or performance, food and prizes.	Years 4 - 12	Free transport and a bus that transports people to and from remote areas.

Figure 18: Participants 'Perfect Project' responses

An internal and external stakeholder workshop presented the key themes to participants and seeking feedback from participants on the key themes. The results provided information which will aid future planning and sought the City's consideration of the below:

- Events that support a positive message and that activate the community, providing opportunities for family and young people to take part and learn more information about support services. The events could include mentors, famous people and showcasing talented local young people (i.e. Battle of the Bands, Film Festival, multicultural events). Events should be planned in conjunction with local Developers and exist alongside existing programs and events.
- Utilise existing community groups in the planning of these events, including the Yanchep Two Rocks Community Bus for pickups and drop offs, this will improve safety concerns and will independence.
- A current perception of Yanchep is that it is the "longest cual-de-sac in the world, it's nearly there". Many people in Yanchep are transient, they come to Yanchep because it is cheap but soon realise that it is small and the distance is too large to travel, resulting in many moving away from the area, closer to cities, shops and services.
- Bus and transport access has a large impact on young people; an increase in bus access points should be prioritised.

- The Yanchep Lagoon remains a tourist site for Yanchep, the area needs to be utilised more effectively with supporting activities such as kayaking, paddle boarding and fishing.
- Increase of footpaths around Yanchep to improve access to key locations and support safety for pedestrians through lighting and road safety messages.

Theme 2: Youth Designated Space and Activities

The engagement saw the community identify the need for an increase in youth services and facilities. Participants indicated value in facilities and services for families and young people to access which are safe and open to the community. Considerable interest was given to the inclusion of a skate park and pool within Yanchep. Statistics from the survey showed the top ranked facilities for young people in Yanchep included the following:

- Recreational Facility
- Youth Centre
- Training Facility
- Community Centre
- BMX/Skate/Scooter Facility

Barriers accessing facilities and services were explored further in the survey, highlighting location, cost, transport, no-one to go with and safety being significant factors to young people. Facilities and services should focus on activating Yanchep, providing a hub for services and information.

Community sought a better understanding of a local government role in community and opportunities for community members to actively contribute to their community. Young people expressed the need for the City to consult with community regarding the planning of future youth facilities. Young people advised the importance of informing community of the outcome of consultations and identified further investigation is required of communication methods to improve process for feedback to community.

To gain further feedback on this theme, we asked young people to create their ideal facilities and services in Yanchep and asked them to examine what young people liked and disliked about existing facilities. Below were the results:

Desired Facility/Youth Service

Light posts from Yanchep to Two Rocks
Swimming pool with sauna, café, water slides, inflatable obstacle course
Convention centre
Yanchep Train station and public transportation
Shed with beach toys that can be hired out, games, benches, wooden sunbeds
Public Computer Access
Youth centre open on weekends
Mental health facility
Treasure hunt and hide and seek at Kalbarri Park
Improve Employment opportunities
More variety fast food restaurants
Clothes Shops to improve employment for young people
Big playground at Oldham Park with flying fox, slides, tight rope, rock climbing wall, Skate Park, drink fountains, sunbeds and shaded areas
University/TAFE
Yanchep Library
Art classes
Skate park

Figure 19: Participants desired facility/youth space

Feedback on Existing Facility/Youth Service

North Joondalup/Edith University	Metro TAFE, Cowan	Improvements needed to public transport, accommodation/boarding
Yanchep Community Centre		Dislike that it is not youth specific; it is currently a shared space.
Oldham Park		Needs for more interactive activities
Booderee Park		Like that it is relaxing, it includes relaxing chairs; enjoy the fitness equipment and the numbered stones game.
Yanchep Youth Program		Enjoy the cooking activities
Two Rocks Skate Park		Good for beginners, not enough shaded areas and currently not being used for what it is made for
Mariala Vista Park		Ramps, BMX track, BBQs and large range of activities liked about the venue, its location, far out was noted as an issue with more lighting to make it safer. Interest in more BMX ramps, flying fox and different skill level BMX tracks were prioritised.

Figure 20: Participants feedback on existing facility/youth space

To gain additional understanding of existing areas in Yanchep that young people visit and their knowledge of existing support services, young people were provided with two maps of Yanchep and were asked to highlight the following;

- Youth support services
- Food and drink locations
- Shopping and retail locations
- Parks and recreational locations
- Places where young people hang out.

The results have been tabled below:

Category	
Youth Support Services	Yanchep Community Centre, Two Rocks Library and Skate Park, Yanchep High School, Yanchep Active Open Space
Food and Drink Locations	McDonalds, Shopping Centre, Yanchep National Park, Yanchep Lagoon
Shopping and Retail	Yanchep Shopping Centre, Woolworths
Parks and Recreational	Kalbarri Park, Yanchep National park, Yanchep Active Open Space, Leisure Park, Old Nursery Park, Charnwood Park, Yanchep High School, Blenny Park, Capilano Park, St Andrews Park, Bewick Park, Wilkie Park, Beachaven Park, Granite Park, Spinifex Park
Young People Hangout	McDonalds, Two Rocks Skate Park, Yanchep Active Open Space, Old Nursery Park, Oldham Park, Two Rocks Library and Skate Park, Yanchep Lagoon, Granite Park

Figure 21: Participants knowledge of existing services

Figure 22: Participants responses to marking out existing services

Consultation with internal and external stakeholders sought feedback on facilities and services that best support young people in community. Participants indicated the City's need to address and consider the following;

- Improved connections of youth spaces, providing a multi-functional space, inclusive of family and youth activities, include a skate park with a play area and toilets, and consider other facilities when planning i.e. Leederville HQ;
- Support services to go to youth designated spaces instead of expecting young people to come to them, take a coordinated approach and ensure the timing is right for young people;
- Work with developers PEET, they have a carpark at the front of their sales office that about 20-25 young people do Parkour there. Consider a possible partnership agreement to create suitable parks for young people;
- Utilise existing vacant land to one side of St Andrews Park for a youth designated space;

- Collaborate with the Wildcats or A Stitch in Time mentoring program to focus on wellbeing, resilience and mentoring programs. Consider mentors such as Mitch Johnston and Danny Green;
- Support camps in community which support development and wellbeing, consider an overnight camp with local leaders at Yanchep Open Space;
- Utilise Bethany Residential Care and family connections to provide intergenerational programs to young people, connect with the local Returned and Services League (RSL) to run programs with young people; and
- Bring in local people to run programs, use local services such as Neighborhood Watch and engage leaders in community.

Theme 3: Participation, Leadership and Celebration

Young people are at times seen in a somewhat negative light in the community with a link being made between young people and antisocial behaviours and drug use. The survey did not demonstrate high recognition of the positive contribution made by young people in community. Subsequent engagement through working groups highlighted that young people represent the future and indicated the need to support their positive achievements, celebrate their creativity and innovation. Partnering with local business and Yanchep High School will provide opportunities for learning, training and employment with a focus on innovation, participation, leadership and celebrating young people’s creativity.

A workshop was held at Yanchep Secondary College to seek feedback from young people about how the City can support young people to feel connected to community. Young people responses to the questions are highlighted below:

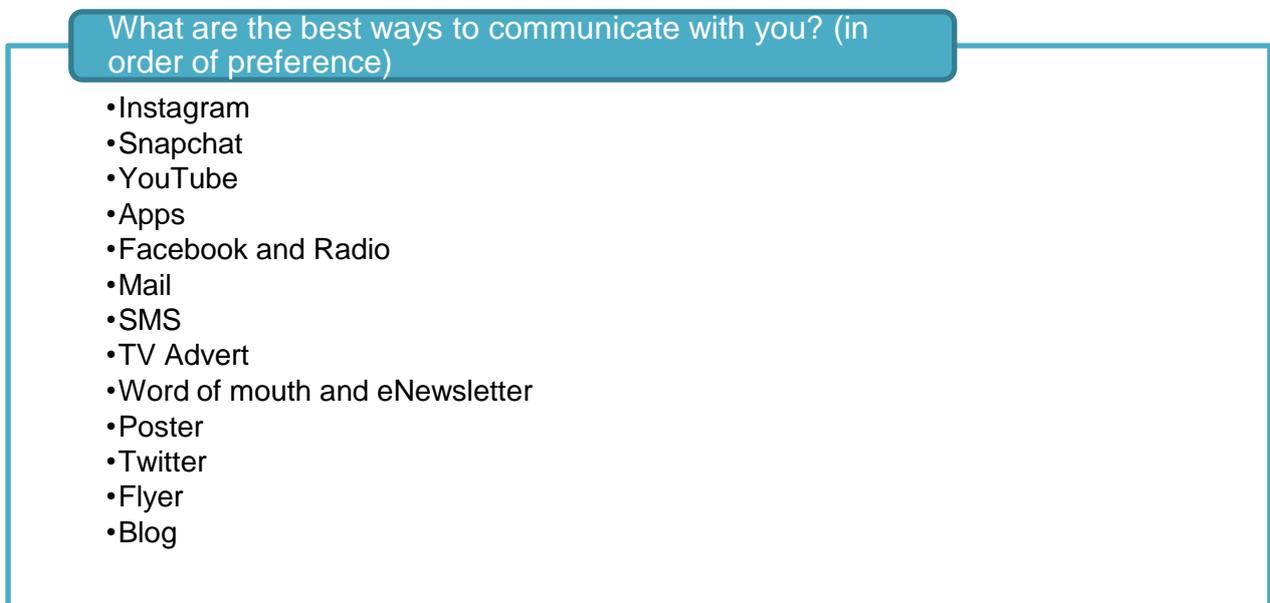

Figure 23: Participants preferred communication methods

How can we make sure that you have been listened to in community?

- Talk to us in person
- Do something to let us know that you have heard us (e.g. send a text)
- Stop arguing with us, work with us and with the ideas we put forward
- Due to lack of feedback, we feel disconnected from the authority figures in community
- We have good leadership amongst ourselves, we just need direction

Figure 24: Participants responses to feeling listened to in community.

Who supports you in community?

- Mum and Dad
- No-one
- Friends
- Teachers
- the Youth Centre
- Generally there is little understanding of any formal support services
- Young people tend to turn to peers for conflict resolution and support

Figure 25: Participants responses to feeling supported in community.

What makes you feel connected in community?

- Swimming pool
- School
- More things to do for young people, more shops
- Skate park
- The need for improved internet service
- If people are friendly and they help you out in community
- Free WiFi connection
- Leadership forum run out of school with the goal being to empower young people about local youth leaders

Figure 26: Participants responses to feeling connected in community.

Engagement with internal and external stakeholders expanded on the theme and outlined opportunities to which the community and the City could explore to improve perception of young people in community and enhance celebration, recognition and involvement of young people in Yanchep. Participants indicated the City's need to consider the following;

- Young people to come together and form a Youth Leadership Group specific to the area. The group should include a facilitator and young people should be provided opportunity to learn new skills i.e. how to manage a project, how to manage a budget;
- Involve young people in the future vision and development of Yanchep and provide opportunity for young people to tell you what they want;
- Increase opportunities for youth volunteerism;
- Look for funding opportunities to support Yanchep Youth Leadership initiative, supporting capacity building and volunteerism;

- Create a Yanchep Youth Newsletter/Facebook page, run by young people for young people;
- Collaborate with leaders in community who are engaging and provide human insight, include local young people to inspire others;
- Develop a music showcase of young people’s talents at Yanchep Active Open Space;
- Develop a Yanchep Youth Radio Station with another Youth Radios providing mentoring opportunities;
- Include young people in donating and volunteering for a good cause i.e. young people donate toys/blankets to those in need, include a sausage sizzle and community to bring a sense of belonging;
- Empower young people to:
 - report behaviours
 - have a voice
 - have realistic expectations
 - be part of the community;
- Young people are desperate for leadership, give them an area to express themselves, create a space and provide leadership direction; and
- Build capacity for young entrepreneurs.

Theme 4: Health, Wellbeing and Fitness

Health, wellbeing and fitness was significantly highlighted throughout the survey with respondents demonstrating the desire for outdoor activities focused on positive healthy messages, activating existing environment and creating opportunity for more pathways to fitness. Young people identified limited availability of accessible fitness and recreation facilities, with desire for open spaces for basketball courts, handball, outdoor game play and sporting grounds.

The community expressed interest in increasing free wellbeing programs and highlighting positive health and wellbeing messages to both young people and the community. Participants identified priority areas for youth issues, including bullying, drugs and alcohol and mental health. Young people identified an interest in receiving up-to-date, relevant information and supported an increase in promoting positive health and wellbeing messages in Yanchep.

In analysing pathways to fitness, the below is feedback provided by an internal stakeholder regarding the barriers of participation to sport.

Barriers of Participation to Sport

- Location for young people: young people have to play away every second week and the travel is an issue, depending on the competition, can play from Mandurah to Yanchep
 - Yanchep has a lack of public transport. The closer you are to train line the easier it is. Subsets have access to private cars.
 - Junior sport is harder for coaches to volunteer to pick up the young people, perceptions and concerns with child safety. Car-pooling isn’t utilised.
 - Limited number of sports available (netball, soccer, football, cricket- currently no junior) unless you want to play those sports, closest is Butler/Joondalup.
-

- Funding is a barrier for the young people, Kid Sport covers some, it doesn't cover equipment, travel etc. and to qualify need to be on a Pensioner or a Health Care Card/Concession Card.
- Clashing priorities with work, education and sports.
- At age 14-17 years, a fair amount drop off from sports, young people get jobs that clash with training/comps times or they focus on education.
- At the time where groups get split into gender specific games, a number of young people drop off unless they offer gender specific comps. Yanchep female football (Joondalup), the district is only starting to create specific gender comps for females. Currently for females only netball and basketball.
- Basketball club in Two Rocks (Phoenix) but play from Joondalup (most northern club go from Butler to Two Rocks)
- Limited providers up in the corridor. Untested market.

Figure 27: Participants perceived barriers of participation to sport

How can we support access to health, wellbeing and fitness?

- Consider timing of activities that the City provide: The offers a low cost fitness class at Phil Renkin (18+) but it's at 9am on Monday and Friday- doesn't suit those in education or work.
- Support and advocate for providers to open up opportunities for young people
- Support funding opportunities for private organisations
- Consider working alongside Edith Cowen in their graduate fitness program. Program is low cost and low to moderate impact fitness class (suitable for young people)
- Support young people to train up and organise a group at the Phill Renkin; they have access to equipment.
- HBF fitness in the park (tailored to specific times)
- Link in with Act, Belong, Commit to share resources and support the delivery of a new program

Figure 28: Participants recommendations to support access to health, wellbeing and fitness

Consultation with internal and external stakeholders sought information on how community can best support access to fitness, health and wellbeing for young people. The response from the workshop indicated the City's role in supporting access should include;

- Understanding that parents and young people struggle with knowing what services are available to them;
- Support conversations in community that normalise mental health and concerning youth issues;
- Support services to collaborate and communicate with each other;
- Increase support for families and young people struggling to purchase of food;
- Support social and emotional wellbeing in community;
- Promote and collaborate with healthy role models in community;
- Support free public Yoga/Pilates class and encourage intergenerational activities;
- Create a sense of community through sports, harnessing the community feel;
- Include mental health outreach services around community and at the school;
- Undertake events that support positive wellbeing messages, take people out of the house and run family friendly events and activities that promote positive messaging;
- Support being in community: messaging and information comes from grassroots, knowing people and recognizing faces;
- Facilitate free safeTALK workshops in community;

- Facilitate community awareness presentations at centers i.e. capacity building, raising awareness;
- Provide community with a small number of support services; consider one or two key services that are accessible in Yanchep; and
- Improve access to services for young people that do not have the support from family and may not be able to get to areas safely without family support. Consider bringing the services to them if transport alone is not an option for some young people.

CONCLUSION

Developed to better understand the needs and interests of young people in Yanchep, YSpeak! Yanchep provided the City opportunity to engage and consult on services and issues most valued in community. Through the engagement, emerged the need to provide a holistic and collaborative approach to service delivery, creating a connected and vibrant community.

The information gathered from the community engagement has been processed and defined in the following key themes;

1. Activation, Access and Services
2. Youth Designated Space and Activities
3. Participation, Leadership and Celebration
4. Health, Safety and Wellbeing

These key themes will ensure that future planning of services for young people are reflective of the community's needs and interests and aligns with the community's vision.

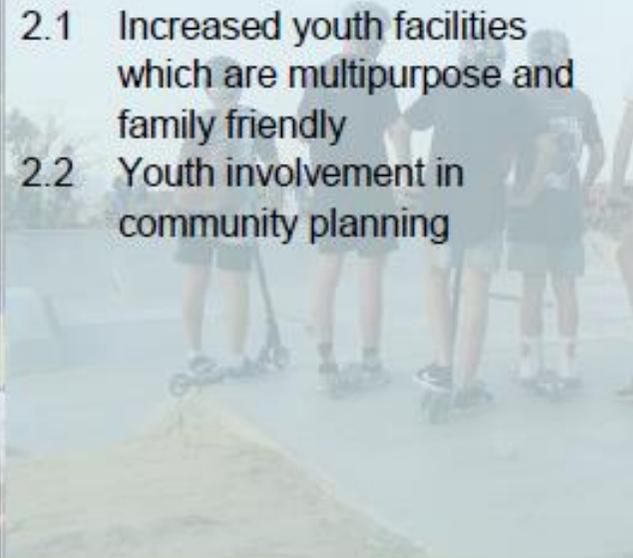

Theme 1: Activation, Access and Services

- 1.1 Celebrate Yanchep's culture, history and future
- 1.2 Enhanced improved infrastructure
- 1.3 Improved access to services

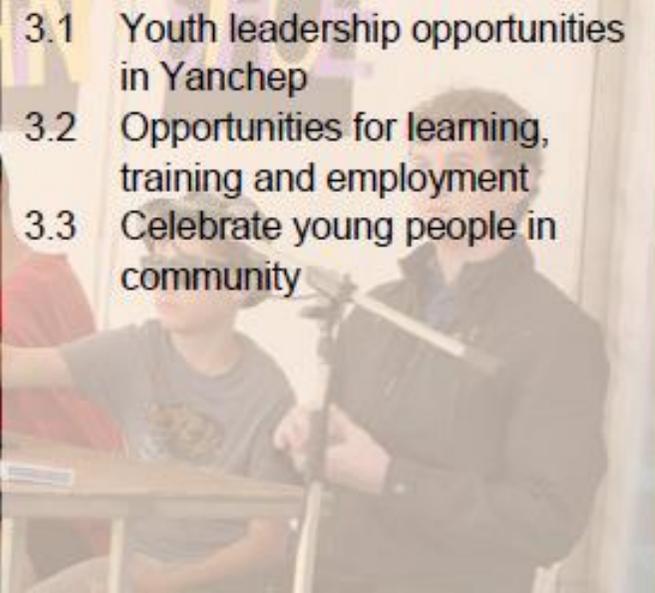

Theme 2: Youth Designated Space and Activities

- 2.1 Increased youth facilities which are multipurpose and family friendly
- 2.2 Youth involvement in community planning

Theme 3: Participation, Leadership and Celebration

- 3.1 Youth leadership opportunities in Yanchep
- 3.2 Opportunities for learning, training and employment
- 3.3 Celebrate young people in community

Theme 4: Health, Wellbeing and Fitness

- 4.1 Support pathways to fitness
- 4.2 Positive health and wellbeing messages

THEME 1: ACTIVATION, ACCESS AND SERVICES

Our Objective: Young people are supported and connected to their community through services, transportation and events that activates Yanchep as a hub of the north.

Ref #	Priority	Action	Responsible Team/s	Relevant City Strategy and Plans	2018/19	2019/20	2020/21
1.1	Celebrate Yanchep's culture, history and future	Collaborate with community to increase youth access and involvement in City and community events, ensuring they are inclusive, low cost and family friendly.
