## **PART 1**

### **STATUTORY PLANNING SECTION**

#### **SUBJECT AREA**

The Structure Plan area includes approximately 61 private landholdings comprising approximately 306 hectares (ha) and 6 crown reserves.

#### **1. ZONES**

Plan 1 : 'The Zoning Map'.

#### **2. AGREED STRUCTURE PLAN**

Plan 2 : The 'Agreed Structure Plan'.

#### **3. RETAIL FLOORSPACE (NLA)**

Retail floorspace (NLA) for the Structure Plan will be in accordance with the Scheme.

#### **4. PROVISIONS**

##### **4.1 RESIDENTIAL PRECINCT:**

This section relates to the 'Residential Precinct' where shown on Plan 2 (Zoning Plan). Unless otherwise identified on Plan 1 (Structure Plan), the residential density to apply in this precinct is R20.

In the context of this structure plan, the 'Residential Precinct' does not relate to land which is zoned Residential under the Scheme.

The permissibility of uses in the 'Residential Precinct' is to be in accordance with the Residential Zone as specified under the Scheme. Rural development involving high-capital investment, offensive trades, mushroom farms and/or of a long term nature will not be supported. Other rural uses may be considered.

#### **Objective/s**

To promote residential development whilst allowing for rural uses and development if it is considered that such uses will not compromise the intention to develop the precinct for residential purposes in the medium and longer term.

In assessing a rural use application within this precinct, consideration will be given to:

- a) referring the applicants to areas set aside for Rural under the scheme;
- b) imposing a time limit on the period for which the approved development may be carried out and the preparation and execution of a legal agreement, at the landowner/s expense, between the landowner/s and Council to the effect; and/or
- c) refusing the application if it is considered likely to prejudice the future planned use of the land;
- d) proximity of urban development to the subject land;
- e) the ability of the land to be used for residential purposes in the immediate future in light of servicing and other constraints;
- f) other appropriate factors.

## **4.2 BUFFER PRECINCT:**

Based on the Western Australian Planning commission's Statement of Planning Policy No.5 – Poultry Farms, a 500 metre buffer precinct from the poultry sheds at Lot 39 Pinjar Road, Mariginiup is proposed.

Whilst it is generally intended that land uses within the Buffer Precinct will be guided by the Agreed Structure Plan, prior to the Council issuing a use or development approval, or, giving subdivision support to an application within the Buffer Precinct (i.e.; within 500 metres of the activity requiring the buffer measured from the boundary of the lot containing the activity or from a point determined by Council) the Agreed Structure Plan will need to be modified to remove the Buffer Precinct zoning and replace it with an appropriate zoning e.g., Residential Precinct. Such a modification will only be supported by Council if either:

- a) the activity requiring the buffer has ceased operating indefinitely; or
- b) the applicant can clearly demonstrate that the odour and/or other impacts associated with the activity can be ameliorated or do not impact on the land subject to the proposed modification to the satisfaction of Council, Western Australian Planning Commission (WAPC) and the Department of Water and Environmental Regulation (DWER)."

Consideration of Rural uses within the Buffer Precinct are the same as those in the Residential Precinct.

## **4.3 ENVIRONMENTAL PROVISIONS**

- a) Prior to undertaking any earthworks or development of the land, the landowners shall demonstrate to the satisfaction of the City of Wanneroo and the Western Australian Planning Commission that no land use activities which may have led to soil contamination/land pollution have occurred on the subject land, or, undertake a Soil Contamination Assessment of the land, at the landowners' cost, to determine the presence or absence of soil contamination to the satisfaction of the Department of Water and Environmental Regulation.
- b) Should any soil contamination be identified in the soil contamination assessment, a Site Remediation and Validation Report for the subject land shall be prepared at the landowners' cost by the developer/subdivider and remediation works shall be undertaken at the landowners' cost for all identified contamination and should be validated as being free of contamination above acceptance guidelines to the satisfaction of the Department of Water and Environmental Regulation, prior to undertaking any earthworks or development of the land.
- c) The subdivider/landowner shall demonstrate to the satisfaction of the City of Wanneroo and the Western Australian Planning Commission that surface water drainage within subject land will be disposed of in a manner that minimises the impacts on the nearby significant wetlands, including potential surface water contamination.
- d) At the subdivision stage the landowner shall review the existing geotechnical information and undertake further site investigation to confirm the nature and extent of karst landform within the subdivision/development application area. This review shall be completed to the requirements of the City of Wanneroo on advice from the Department of Water and Environmental Regulation prior to the consideration of any subdivision/development application.

## **5. INFRASTRUCTURE CONTRIBUTIONS**

- a) The contributions to be made by an owner for the implementation of the Cell Works shall be determined in accordance with the scheme.
- b) Cell Costs shall be reviewed in accordance with the relevant Scheme provisions relating to the 'Revision of Cell Costs'.
- c) Current rate of contribution for Cell 1 and the associated breakdown of costs can be obtained from the City of Wanneroo.

## 6. PUBLIC OPEN SPACE (POS) PROVISION

The following Schedule 1 details the Public Open Space (POS), which is to be provided by landholders for each lot within Cell 1. The POS allocation reflects the distribution of POS on the Agreed Local Structure Plan for Cell 1.
