PARIKH, Virendra

My name is Virendra Parikh (JP) and I'm interested in becoming your local council representative.

I'm currently working as an analyst. I've lived in the South-West ward for 16 years, and am happily married with two grown-up children. I am also a Justice of Peace and a board member for the Ethnic Community Council of WA.

My time living in our ward has taught me much about this community and has helped me recognise where there may be room for improvement. If elected as your representative, I plan to;

- Improve the security within our ward
- Make this council a leader in recycling
- Organise street fairs and outdoor movies
- Help promote local businesses

This community has given me so many opportunities, and I'd like the opportunity to return the favour by becoming your council representative.
