---

## RAHI, Saba

Having resided in the City of Wanneroo for over 20 years, and currently working as a Secondary Teacher at the local public school, I want to give back to our flourishing community. I am passionate about a safer, sustainable, and bustling community thriving with local businesses, safe spaces for our youth and securer roads and footpaths. I will be advocating for more small businesses and providing ongoing support to our existing ones. Championing Community Planting Days to preserve the greenery and encouraging sustainability. Campaigning for more recreational facilities for both the young and old in our community. And most importantly, regularly collaborating and liaising with the community to ensure *your* ideas come to fruition. I very much look forward to working with you and *for* you!
