## FILARDI, Clinton

As a tertiary educator and father of 2 you can be assured of my integrity and commitment to represent your interests on council. My community first approach focusses on your family's interests and wellbeing by delivering better events, quality facilities and an improved focus on community safety. This is my commitment to you. I can achieve this through highly ethical behaviour coupled with my ability to bring council to focus on issues that are important to you. I am passionate about our youth, ensuring we provide opportunities for them to grow and engage. I am also driven to improve quality of life experiences and improved security for our seniors. Your vote will ensure that rates reflect community needs, and that the right balance is in place to ensure council delivers for our community
