MAKUR, Aker

I am passionate about community safety, development and creating inviting spaces for everyone.

I have a Bachelor of Commerce in International Business Management. I have worked for international & local NGO's in procurement, conflict resolution and advocating for cohesion within communities. I have volunteered at an orphanage, projects and provided tutoring to young children overseas. I currently work in health care industry supporting people with disabilities.

I've participated at youth forum panel discussing and exploring the importance of youth in decision making positions. These experiences provided me a sound temperament to actively contribute to the betterment of our community.

I pride myself in community representation- consulting & actively listening to locals on matters important.
