DUFFIELD, Gary

55, married, one very big mortgage, a rescue dog and a 23 year old still in full time education. I need to work, & I need this area to prosper. Living and building in Alkimos, I was campaigning for Connect Wanneroo before it was trendy to do so, a founding member of our local resident group, a mentor for a children's charity, school board member, community radio presenter & even helping Santa. I've a passion for community. No promises I can't keep, just common sense delivered with integrity. I believe in helping people realise their potential. At the start of COVID I created a Facebook group to help connect local struggling restaurants to customers. A vote for me is a vote for integrity, realising potential, helping people, and building places we want to live in. Potential, People, Places.
