LOCAL DEVELOPMENT PLAN No.18

LOCAL DEVELOPMENT PLAN REQUIREMENTS

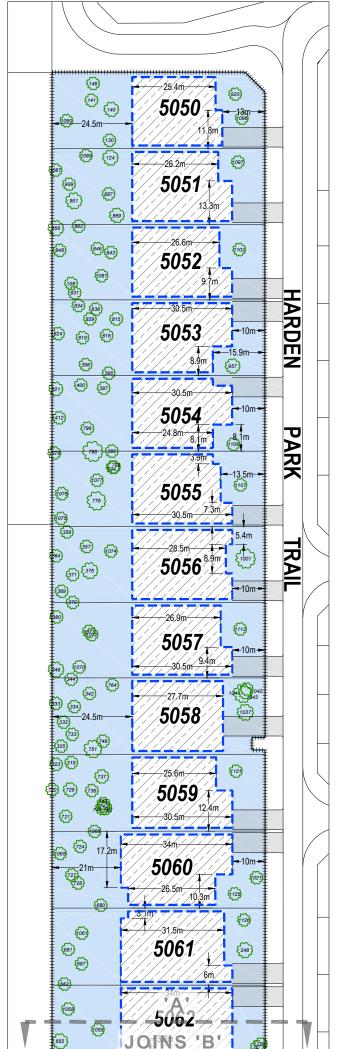

PRELIMINARY

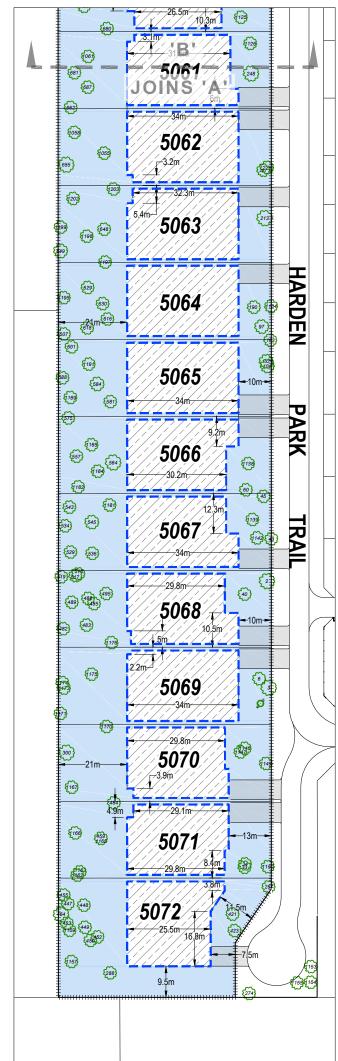

Unless provided for below, the provisions for the City of Wanneroo District Planning Scheme No.2, the Banksia Grove ASP No.21A or the Residential Design Codes apply.

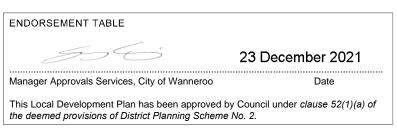

This Local Development Plan (LDP) operates in conjunction with the R-Codes by applying additional controls or by varying "Deemed-to-Comply" requirements. Where this LDP varies any requirements of the R-Codes, compliance shall be deemed to constitute "Deemed-to-Comply".

GENERAL

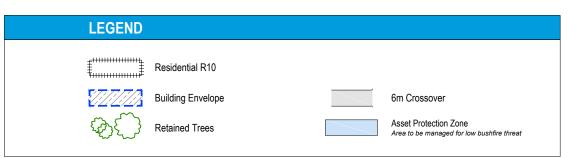

- 1. Habitable dwellings must be located within the Building Envelope identified on this LDP.
- An Asset Protection Zone shall be provided as identified on the LDP and in accordance with the provisions of the approved Bushfire Management Plan (10 March 2021) State Planning Policy 3.7 Planning in Bushfire Prone Areas and Guidelines for Planning Prone Areas.
- 3. All trees identified on this LDP and within Appendix 1 shall be retained in perpetuity and may only be removed where approved by the City of Wanneroo. Management of vegetation is only permitted, where required for minimum compliance with the Asset Protection Zone requirements of State Planning Policy 3.7 Planning in Bushfire Prone Areas and Guidelines for Planning in Bushfire Prone Areas. Approval from the City of Wanneroo is not required for Asset Protection Zone management works.
- 4. Driveways shall be located where designated on this LDP. Driveways shall have a maximum width of 6m, unless otherwise approved by the City of Wanneroo.
- 5. A maximum 50% of the rear and side Asset Protection Zones (western and southern) are permitted to be developed with non-habitable structures such as outbuildings, patios, pergolas decks and swimming pools. With the exception of swimming pools and retaining walls, these non-habitable structures must be setback a minimum of 6m from the dwelling and comply with AS3959 Construction of Buildings in Bushfire-Prone Areas. Structures must be sensitively located with adequate separation from retained trees to ensure the health of trees is not compromised. Approval from the City of Wanneroo is required.
- 6. A maximum of 50% of the front Asset Protection Zone (eastern) may be developed with non-habitable structures such as driveways, pathways, letterboxes and front fences, subject to the structure being sensitively located with adequate separation from retained trees to ensure the health of trees is not compromised.
- 7. A secondary street setback of 1.5m is permitted for lot 5050.
