

Wanneroo Regional Museum

Visual supports

 The pictures can be used to plan your visit. Cut them out and use with the visual schedule template. First, look at the map of the museum online and decide what you'd like to do. Then cut out the cards for the displays you want to explore and use the other cards to organise your visit. The borders of the symbols are coloured.

Displays = blue border and **hands-on activities** = yellow border..

This resource is inspired by materials developed by WA Museum Boola Bardip and Autism Western Australia and was created with the support of Rocky Bay. Boardmaker symbols have been used for this resource.
