| Enrolment status | BLACKHEART, Adam is eligible to stand for election as a resident of the City of Wanneroo. |

I'm running for Council because I believe in our community, and I'm concerned the City is not supporting us.

I believe it ignores the South Ward- there is no budget funding to improve our amenities or build new facilities for our growing population, providing only enough cash to maintain what we have. That's not equitable.

I believe the City continues not to take our environmental concerns seriously. We should triple the number of street trees, improve our waste management, and give free seedings to every household to green up our verges and make them water-wise. That's a minimum.

I believe the city should be helping us ignite our sense of belonging- more support for your hobbies, more opportunities for your kids and grandkids at nearby Community Centres. The City should be developing a year-round program of events and activities to build an exciting place for all of us to live. That's only fair.
