

Dear Residents,

We live in a beautiful part of the world with 32kms of coastline, 36 suburbs from Koondoola in the South to Two Rocks in the North. The city within its 687 square km's has bushland, wetlands, urban & rural areas with many new developments. It is the largest & fastest growing local government area & our community is incredibly diverse.

You choose your ward councillors to represent you & it has been a privilege to represent the Central-West Ward. I am now asking for your trust & confidence to vote for me as your FULL-TIME Mayor.

The mayor is only ONE vote in the council chamber & I will not make any false promises. I will however advocate for our residents & work as a team to achieve the very best for residents. There is no "I" in team & it is only by working together with good leadership, in collaboration with each other that residents can be served well.

I am politically neutral & in my roles as CEO of community organisations I have maintained effective respectful relationships with State & Federal members, Being Mayor would be no different advocating for funding to benefit our city.

We have a responsibility to deliver a balanced budget, being mindful of cost-of-living pressures. I promise to work diligently for you to support growing suburbs, upgrade ageing assets in all suburbs from Koondoola to Two Rocks, look after our coastline impacted by coastal erosion, protect our environment whilst promoting local business growth in Neerabup to create local employment opportunities for all.

Other priorities include promoting community safety, youth services, support for our seniors, provision of increased facilities, support for local groups, roads that are pedestrian & cyclist friendly, responsible pet ownership whilst ensuring your rates are applied equitably with transparency across the city.

I promise to act for the benefit of all residents in improving our city as the best place to live, work and enjoy.

Please contact me for further information.
