

### **Additional Information**

As your North Ward Councillor since 2017, it's been my honour to work alongside you to deliver meaningful outcomes that uplift our growing community.

Together, we've achieved key milestones freeway extensions to improve connectivity, the Yanchep Rail Line, and upgrades to Heath Park and the Orion Café. I've supported the Alkimos 50m Pool and Rec Centre, and advocated for playgrounds, cycle paths, and walkways that make our neighbourhoods safer and more inclusive.

I continue to push for road safety, expanded CCTV, and graffiti prevention to create welcoming spaces for all. I'm advancing the Lagoon Redevelopment, revitalising the Old Surf Club site into a lively destination for locals and visitors. I am also advocating for a dual carriageway on Yanchep Beach Road.

I'm committed to new beach access south of Leemans Landing, upgrades to Phil Renkin Leisure Centre, and expanding Splendid Park to meet our growing clubs' needs. I'm progressing the Brazier Road shared path, refurbishing the Yanchep Sports Club and synthetic turf, and helping relocate the Community Garden to Oldham Park. I'm working to secure a permanent home for the Men's Shed. I'm also focused on delivering a new Alkimos Surf Club to support coastal safety, youth engagement, and vibrant community recreation, and a mountain bike facility to engage youth and boost outdoor tourism.

As Yanchep grows into its own City, I'm focused on securing a hospital, library, and City offices before the transition. My vision includes better verges, more shade trees, quality sports facilities, senior support, free family events, low rates, coastal protection, local jobs, and efficient transport while preserving the freedoms that define our Aussie way of life.

My husband and sons are active in local sport and community, and I'm proud to have served as President of St James P&F.

Let's keep building a brighter, stronger future together.

Thank you for your support.
