

Additional Information

Hi, I'm a local resident and teacher now working in public service. For the past three years, I've been proud to serve as your local councillor, making this role a top priority with reliable attendance and strong representation. I believe I've proven myself to be a dedicated representative - someone who doesn't just listen, but is known for asking thoughtful questions and staying calm under pressure. These qualities have helped me work effectively with fellow councillors and the administration team to deliver better outcomes for our community.

The City of Wanneroo is performing well, but there's always room to improve. I know how frustrating bureaucracy can be, and I'll continue to be the squeaky wheel when needed - pushing for practical solutions and better communication for residents and community groups.

During my time on council, I've helped expand the provision of AEDs and anti-choking devices in city facilities, increased verge weed maintenance, and successfully advocated for a full safety inspection of pathways in Butler. I've also championed club and community needs at Halesworth and Addison Park, initiated cost-effective planning to deliver better value for ratepayers, and a review of the city's graffiti strategy with a focus on stronger responses and the positive role murals can play. I've supported our local schools, P&Cs, and sporting clubs by attending events, donating hampers, advocating on traffic and ground issues, and fundraising for wellbeing programs through Rotary Mindarie.

With experience of how our City works now, I can be an even more effective representative in a second term focusing on fairer rates, a school crossing for Merriwa PS, graffiti prevention, and more trees, verge maintenance, police services, sports facilities, and public art.

I said when I last ran that living a life of service gives my life its greatest meaning and that remains as true as ever.

I'd be honoured to have your support to keep making progress for our community.
