

### **Additional Information**

I have a love for our land, our people, and our shared future. I've seen how powerful community can be when we come together with purpose, & I believe in a council that reflects that same spirit: one that listens, respects, and acts with integrity.

This isn't just about policies, it's about people. It's about protecting the places our children play, supporting the small businesses that give our suburbs character, and making sure every resident feels seen and heard.

I'm running because I care deeply, and because I know that real change starts with everyday voices rising together.

Whether it's standing up for Scenic Drive Park or advocating for fairer rates and better facilities, I bring heart, grit, and a commitment to serve. I'm not here for politics I'm here for people.

Let me show you. Let's do this together.
